VOLMARY® PLANT BREEDING AND INFORMATION CENTRE

Dear Ladies and Gentlemen,

With this, you receive the Volmary Young Plants & Seeds Catalog Spring 2024.

The range consists of our strongest varieties and has been expanded with many innovations. All varieties have performed excellently in international comparisons.

The popular **Lantana-Serie Evita®** with very early flowering is complemented by the attractive, bright flower colours of **Fire** and **Magenta** varieties. An attractive summer pot with Mediterranean flair and excellent flowering characteristics throughout the summer.

In the field of coneflowers, **Echinacea Unica®** brings a new variety of colours as a special colour series with partly bicolour flowers. There are also many new things to discover in the popular **Papallo® Series** with the **Purple** and **Milk** varieties as well as the improved **Deep Yellow** and **Orange Rose** varieties. All are available as vigorous plants in trays of 40 for 3-5L containers or trays of 84 for 13-19cm pots.

Blooming flower meadows from seed have been very popular with consumers for years, only direct sowing remains difficult for hobby gardeners. Here, **Naturbiente® flower mixes from 84 young plant tray** offer a real solution to the problem. They are ideal for easy and quick pre-cultivation of planting stock or the production of flowering containers. Available in six different mixed themes.

The sweet potato of **Erato® Vineland Early Orange** variety allows a significantly earlier harvest than many other sweet potato varieties. Depending on the start of cultivation and weather conditions, sweet potatoes can be planted from May to June. This allows a supply period for freshly harvested, regionally produced sweet potatoes from August until frost. Such products are clearly different from long-stored, imported overseas products.

Spring-autumn is the ideal start of cultivation for the divinely **BasiliVum®** varieties of Volmary. Whether the fragrant, colourful varieties of **Copa® series** or the robust, aromatic **Garden basil varieties of Tauris®**. Basil by nature has more to offer than the familiar, delicate basils from the supermarket.

Hobby gardeners like to plant colourful **FruchTeens® fruit** in handy 13cm pots among their bedding and balcony plants. **The potted raspberries Summer Lovers® Patio Red, Gold** and brand new **Orange**, which fruit on one-year-old wood, can still be potted in 8-10 weeks and will delight with fresh, delicious fruit already in the first garden year.

Many gardeners and marketers have recognized that good results can be achieved through targeted marketing work in partnership. Volmary makes a convincing impression about the product, in sales as well as online and creates emotional **Volmary® brand experience** with the colourful garden retail brand **Volmary®**.

The **Volmary online portal** offers you the possibility to order seeds & young plants around the clock, as well as many other advantages, such as insight into current availabilities and **marketing materials** for your sales.

The best products and targeted information are your success! Our international connections to science, breeders, young plant producers, production nursery, marketers and media provide you with leading breeding and first-hand knowledge. Take advantage of Volmary. Our experienced staff in the **office and field service** will advise you confidentially on questions of variety and culture.

With kind regards

Management and staff

VOLMARY® YOUNG PLANT PRODUCTION

HEAD OF SALES BERND KRÄMER

VOLMARY® – YOUR INDEPENDENT PARTNER

Volmary GmbH is an independent, medium-sized **family business** in horticulture and a leading European plant-breeding company. As a strong and innovative partner in commercial horticulture, Volmary® stands by your side with developed plant brand concepts for the specialist garden trade and food retail trade.

Volmary® is internationally recognised in the following areas:
- Production and distribution of vegetatively and generatively propagated **young plants** of **flowers, vegetables, herbs,** and **fruit**
- Propagation and distribution of **seeds** (flower and vegetable seeds)
- Distribution of **vegetable bulbs**
- **Classical plant breeding** in the field of flowers and vegetables
- Control of the **plant brand concepts Volmary®** Plants and **Soul Plants®**

Products with the highest quality standards

The Volmary® young plant production produces Volmary® young plants using the latest seed and greenhouse technology. Work steps are supported by precise seeding technology and climate control. A computer-aided quality assurance system allows the delivery of high-quality, fully equipped trays. Our efficient logistics can deliver young plants reliably and in the shortest possible time. These guarantee our high-quality standard and enable a safe and successful further culture.

Exclusive varieties

New and particularly powerful varieties are paramount for offering your customers a modern and high-quality assortment of flowers and vegetables. Volmary®'s Plant Breeding and Information Centre in Münster offers great opportunities to become familiar with new varieties. Exact, practice-relevant cultural recommendations emerge from intensive varietal tests. All new varieties undergo multi-annual tests in Volmary® greenhouses and on their own Volmary® test fields, being also tested for outdoor and bed suitability.

Volmary offers a wide range of organic vegetables and herbs – and organic flowers are also available to you by arrangement. You will receive the full selection of organic young plants, organic cuttings (URC) and organic seeds.
We supply unrooted organic cuttings from our EU-certified mother plants. With Volmary's large selection of organic products, you can optimally plan the range for sustainable organic production.

And additional offers such as Multikraft® products let you implement a sustainable production approach. Please contact us, we shall gladly inform you.

Variety Show Dates

Several times a year, we open the doors of the Volmary® Plant Breeding and Information Centre for customers and prospects to explore the latest varieties.

VOLMARY®
PLANT BRAND CONCEPT

Convincing strategies create added value for production gardeners, the entire retail chain and end consumers alike.

CONTACT PERSONS VOLMARY® CONCEPT: BERND WENNINGHOFF, MANUELA MANEGOLD AND STEFANIE STÄRK

The Volmary® plant brand concept is aimed at producers who market their goods through the specialist garden trade. This concept stands for the values of Volmary's family business. Service, marketing support – from seeds to plants, Volmary® stands for the highest standards and premium quality. Plants are cultivated under licence by selected horticultural companies and marketed through the specialist horticultural trade.
Quality is the decisive factor: only the best varieties from professional horticulture – which guarantee success – are part of the Volmary® range.

- Commercially successful varieties – variety that's fun!
- Year-round marketing programme
- Modern, fresh design
- Numerous sales promotion material for the optimal Volmary® plant presentation
- Effective multichannel marketing

Benefit from the many advantages of the Volmary® plant world.

"Plant brand concept for
the garden trade"

VOLMARY®
SALES PROMOTION MATERIAL

With the attractive Volmary® sales promotion material, you can present your Volmary® branded plants optimally and thus increase your sales.

A colourful design, for example of CC carts, can take place with CC corners, adhesive tape, toppers, sales signs, and informative flyers. This creates a good mood at the point of sale and favours sales. Use the numerous promotional materials for your Volmary® plant presentation.

Volmary® active marketing support

The sales promotion of the Volmary® plant world is underpinned by versatile marketing. Thus, you benefit from a strong sales brand that captivates, inspires, and informs. Gain new customers with individual sales concepts and special promotions and improve your sales channels.

Volmary® shapes marketing:

- Volmary® actively participates in show plantings at federal and state garden shows and other high-turnout locations
- Modern website for all target groups and active professional area on **www.volmary.com**
- Creative design on all important **social media channels** such as Facebook, Instagram, Pinterest and YouTube.
- End user blog with relevant focus topics on **www.volmary.com/plant-happy**
- Volmary® garden tips via Telegram, WhatsApp and/or Facebook Messenger
- Active speakers for specialist lectures
- Volmary® garden blogger meeting with intensive dialogue with hobby gardeners and influencers
- Editorial contributions in leading amateur gardening magazines, on radio and television
- Effective Volmary® print advertising in renowned hobby gardener magazines is aimed directly at the target group

MULTIKRAFT® PLANT STRENGTHENING

Naturally effective

The family-owned company Multikraft® is the leading developer and manufacturer of effective micro-organisms. With the help of this technology, Multikraft® produces ecological products with sustainable benefits for humans, animals, and the environment. Multikraft® works with nature as a model, promotes its regeneration and strengthens natural processes. To advance these processes, we rely on the smallest organisms – microorganisms that underlie all life on earth. The use of Multikraft® plant strengthening agents favours root formation and increases the resistance of plants to soil-borne diseases and pests. Furthermore, they boost germination, flowering, fruits, plant ripening and flower luminosity. This allows reducing or entirely doing away with pesticides.

The All-In-One products **MK Blumen** and **MK Gemüse** are particularly easy to use and prevent fungal diseases and pests. Stable growth and good branching is promoted by regular application via leaf spraying. Multikraft® products have been successfully deployed in ornamental plant and vegetable cultivation for years and offer an excellent opportunity to produce more environmentally friendly products. You can also do gardening with the power of nature.

Your Volmary® contact person will be happy to inform you about Multikraft®.

VOLMARY® RANGE OVERVIEW

Everything at a glance! This page gives you an overview of our entire spring range. It helps you to look around our catalogue quickly and accurately and to find your desired category directly. You can also use this page to discover new categories and find out about exclusive varieties and our product highlights. This gives you all the important information about our wide range of products for a strong season and your success.

Take advantage of the **Volmary Kaldenhof® Days** to find out about our **wide range** of Calibrachoa. Our staff will be happy to advise you.

Volmary's Calibrachoa series **combine very early flowering, well-branched growth** and **breaking resistance of the shoots**. Their long flower opening delights end consumers and retailers alike.

The different series are specially composed to meet **varying vigour** requirements: from very compact-growing series with low inhibitor requirements for efficient and rational cultivation, to stronger-growing series for beautiful premium products. You will find the right varieties for your production in the Volmary range.

Hanging Fuchsia

LEONITA

- Compact growing series with ideal cultivation characteristics for pot sales.
- Richly branching, initially bushy growing, later overhanging
- Uniformly early flowering, even without exposure to light
- Very numerous, single flowers in bright colours

LEONITA SEMI DOUBLE

- Semi-double flowering variety with an overhanging growth
- Well branched, flat-round plant structure
- Early flowering even without exposure
- Ideal for pot cultivation and smaller hanging baskets

LEONITA XL

- Large, bright flowers in attractive colours
- Overhanging, medium-strong growth
- Good basal branching
- Ideal for heavy pots or hanging baskets

LEONITA DOUBLE

- Double-flowering series with overhanging growth.
- Well-branched, flat-round plant structure
- Early flowering even without light
- Ideal for pot culture and smaller hanging baskets

MARBELLER™

- Large, double flowers with attractive stripes
- Hanging, vigorous habit
- Imposing plants with good flowering, ideal for hanging baskets

TAGETES

MARIGOLDS FOR FIGHTING NEMATODES ASTERACEAE

1000		°C		
6-10*/15-20**	V-VII	15-18	10-17	-

*) Early sowing: 6-10 kg/ha
**) Late sowing: 15-20 kg/ha
In some areas of horticulture, nematodes have led to reduced yields or have even caused problems with total crop losses. One way of fighting these pests in the soil is by sowing Tagetes before the start of cultivation.

Type				
Nema	18-22	OUT	-	-
Single Gold	18-22	OUT	-	-

NEMA MIX

- A vigorous variety with good ground coverage and branching
- Good formation of crop material and root mass
- Good weed control in practice
- Semi-double flowers in predominantly red shades, height: approx. 60 cm

478805 **Nema Mix** SEED
Mix

478810 Single Gold

ECHEVERIE CRASSULACEAE

Type					
Giant Blue	10-13	10-16	16-25	-	(x)
Perle von Nürnberg	9-12	10-16	16-25	-	-

GIANT BLUE

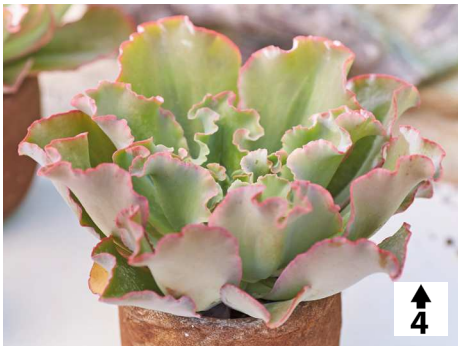
- Strikingly wavy, silver-blue leaves with a pink edge
- Very vigorously growing, voluminous rosette
- Ideal for heavy pot products

499267 **Giant Blue** 84
Silver-blue-pink / pink blossom

PERLE VON NÜRNBERG

- Bronze-violet leaves with a pink edge
- Solid, evenly shaped, flat rosettes
- Robust, reliable growth
- Suitable for all common pot sizes

499270 **Perle von Nürnberg** 84
Bronze-pink/pink blossom



499267 Giant Blue

499270 Perle von Nürnberg

ECHEVERIA NODULOSA

ECHEVERIE CRASSULACEAE

Type					
Echeveria nodulosa	9-12	10-16	16-25	-	(x)
Benitsukasa	9-12	10-16	16-25	-	(x)

ECHEVERIA NODULOSA

- Stem-forming, strong growth
- Comparatively large leave with intense, red markings
- Ideal for medium and large pots

499303 **Echeveria nodulosa** 84
Green-red / creamy yellow blossom

BENITSUKASA

- Stem-forming medium-strong growth
- Attractive cherry-red markings on reddish leaves
- Harmonious plant structure, good pot coverage

499304 **Benitsukasa** 84
NEW Green-Pink / Flower Cream Yellow

499303 Echeveria nodulosa

499304 Benitsukasa

ECHEVERIA PEACOCKII

ECHEVERIE CRASSULACEAE

1000		°C		
1500	I-IV	20-22	10-18	8-10

Type					
Urban	10-12	8-12/16*	16-25	-	-

*) flowering plants

URBAN

- Succulent, rosettes with flowering in the first year of cultivation.
- Very easy to care for and drought tolerant
- Ideal as a patio plant, for bowl and grave plantings
- Height with flower approx. 30 cm

499317 **Orange** 180
NEW Silver blue/orange blossom

499320 **Yellow** 180
NEW Silver blue/yellow blossom

499317 Urban Orange

499320 Urban Yellow

ECHEVERIA PURPUSORUM

ECHEVERIE CRASSULACEAE

Type					
Echeveria purpusorum	9-11	10-16	16-25	-	-

ECHEVERIA PURPUSORUM

- Silvery frosted, olive-green leaves with a reddish margin
- Compact, slow-growing rosette with a long flower stalk
- Ideal for small and medium pot sizes

499327 **Echeveria purpusorum** 84
Olive-green-silver / red blossom with yellow tips

499327 Echeveria purpusorum

499348 Echeveria scheideckeri

499430 Big Band

ECHEVERIA RUNYONII

ECHEVERIE — CRASSULACEAE

Type					
Topsy Turvy	9-12	10-16	16-25	-	-

TOPSY TURVY

- Spatula-shaped, folded leaf with an upright position
- Attractive, silver-blue colour
- Strong growth, ideal for all common pot sizes

499339 **Topsy Turvy** 84
Silver blue / yellow orange blossom

499339 Topsy Turvy

ECHEVERIA STRICTAFLORA

ECHEVERIE — CRASSULACEAE

Type					
Echeveria strictaflora	9-12	10-16	16-25	-	-

ECHEVERIA STRICTAFLORA

- Silver-blue, wedge-shaped leaf with narrow, red margin.
- Sturdy, firm rosettes
- Ideal for medium-weight pots

499353 **Echeveria strictaflora** 84
NEW Silver blue with reddish edge

499353 Echeveria strictaflora

KALANCHOE TOMENTOSA

"CAT-EAR" KALANCHOE — CRASSULACEAE

Type					
Kalanchoe tomentosa	9-12	10-16	16-25	(x)	(x)
Brownie	9-12	10-16	16-25	(x)	(x)

KALANCHOE TOMENTOSA

- Silvery hairy leaves with a dark brown margin
- Growing fast and vigorously

499506 **Kalanchoe tomentosa** 84
Silver-brown/green-yellow flower

BROWNIE

- Greenish, silvery hairy leaves with contrasting dark brown tips.
- Robust and medium growing

499508 **Brownie** 84
NEW Silver-brown/green-yellow flower

499506 Kalanchoe tomentosa

ECHEVERIA SCHEIDECKERI

ECHEVERIE — CRASSULACEAE

Type					
Echeveria scheideckeri	9-12	10-16	16-25	-	-

ECHEVERIA SCHEIDECKERI

- Silvery, slightly inwardly curved leaf
- Dense, spherical rosettes with good growth
- Suitable for all common pot sizes

499348 **Echeveria scheideckeri** 84
Silver blue/yellow blossom

HAWORTHIA

HAWORTHIE — XANTHORRHOEACEAE

Type					
Big Band	9-12	14-20	16-25	-	-

BIG BAND

- Dark green, upright leaves with pearl-like, white banding
- Slow growing

499430 **Big Band** 84
Dark green, white banded/white blossom

499508 Brownie

ASPLENIUM TRICHOMANES

BROWN-STEMMED STRIPED FERN ASPLENIACEAE

Type					
Petra	10-13	10-12	14-18	-	-

PETRA

- Long, pinnate fronds with dark stems and small, round leaves
- Evergreen
- Flat spreading, compact growth
- Ideal for semi-shady and shady locations, also in sunny spots with good water supply, e.g. in rock gardens

499608 **Petra** 104
Green / dark stems

ATHYRIUM FILIX-FEMINA

LADY FERN WOODSIACEAE

Type					
Rotstiel	12-19	10-12	14-18	-	-

ROTSTIEL

- Long-lived lady fern with attractive, dark red stems
- Nest-like, slightly overhanging fronds
- Retreats over winter
- Prefers shady or semi-shady locations

499614 **Rotstiel** 104
Green / red stems

ATHYRIUM NIPONICUM

JAPANESE PAINTED FERN WOODSIACEAE

Type					
Burgundy Lace	12-15	10-12	14-18	-	-
Metallicum	10-13	10-12	14-18	-	-

BURGUNDY LACE

- Striking red-silvery shoots in spring
- Silvery green summer colouring with red midrib
- Evergreen
- Robust and healthy in semi-shady, moist locations

499622 **Burgundy Lace** 104
Silvery green

METALLICUM

- Hardy fern with silvery-green leaves
- Contrasting pink-violet midrib
- Ideal for acidic, moist locations in the shade and as a floral accessory

499624 **Metallicum** 104
Silver / green / pink

BLECHNUM SPICANT

RIBBED FERN BLECHNACEAE

Type					
Stripetti	12-15	10-12	14-18	-	-

STRIPETTI

- Easy-care striped fern for shady, acidic and moist locations
- Upright, leathery fronds with conspicuous spore hymenia
- Evergreen, not sprawling

499630 **Stripetti** 104
Green

CHEILANTHES LANOSA

HAIRY LIPFERN ADIANTACEAE

Type					
Cimbra	10-13	10-12	14-18	-	-

CIMBRA

- Hardy fern with downy, pinnate foliage
- Tolerates sunny to semi-shady locations with sufficient soil moisture
- Ideal for low-maintenance plantings

499634 **Cimbra** 104
Mint green

499608 Petra

499622 Burgundy Lace

499630 Stripetti

499614 Rotstiel

499624 Metallicum

499634 Cimbra

CYRTOMIUM FORTUNEI

HOLLY FERN — DRYOPTERIDACEAE

Type					
Clivicola	10-13	10-12	14-18	-	-

CLIVICOLA

- Overhanging, coarsely pinnate fronds with a broad, shiny spread
- Strikingly fresh green even in winter, ideal for autumn planting
- Good winter hardiness, low soil requirements

499638 **Clivicola** 104
Mint green

DRYOPTERIS AFFINIS

GOLDEN-SCALED MALE FERN — DRYOPTERIDACEAE

Type					
Crispa	10-13	12-14	14-18	-	-

CRISPA

- Largely evergreen, compact growing fern
- Pinnate, dark green fronds
- Good area coverage due to runner formation, but not sprawling
- Also tolerates sunny locations with sufficient soil moisture

499642 **Crispa** 104
Green

DRYOPTERIS ERYTHROSORA

JAPANESE SHIELD FERN — DRYOPTERIDACEAE

Type					
Autumn	10-13	8-10	14-18	-	-

AUTUMN

- Attractive bronze colouring of the fresh shoots
- Foliage remains green into winter, ideal for mixed autumn plantings
- Robust variety suitable for partial shade, also suitable for sunny locations if the soil is sufficiently moist

499680 **Autumn** 104
Green / bronze

DRYOPTERIS FILIX-MAS

COMMON MALE FERN — DRYOPTERIDACEAE

Type					
Mexica	10-13	8-10	14-18	-	-

MEXICA

- Funnel-shaped, fresh green fronds
- For shady and semi-shady locations with sufficient soil moisture
- Good winter hardiness, deciduous

499700 **Mexica** 104
Green

MATTEUCCIA STRUTHIOPTERIS

OSTRICH FERN — ONOCLEACEAE

Type					
Nestor	12-19	10-12	14-18	-	-

NESTOR

- Native bouquet fern with upright, fresh green fronds.
- Very vigorous, sprouting runners
- Ideal for natural planting in shady locations

499724 **Nestor** 104
Green

OSMUNDA CINNAMOMEA

CINNAMON FERN — OSMUNDACEAE

Type					
Cinnamon Sticks	12-19	10-12	14-18	-	-

CINNAMON STICKS

- Royal fern with upright, cinnamon-coloured sporangia
- Robust and vigorous even in permanently damp locations
- Ideal for natural garden design

499728 **Cinnamon Sticks** 104
Green / brown sporangia

499638 Clivicola

499680 Autumn

499724 Nestor

499642 Crispa

499700 Mexica

499728 Cinnamon Sticks

PHYLLITIS SCOLOPENDRIUM

COMMON HART'S TONGUE — ASPLENIACEAE

Type					
Phyllis	10-13	10-12	14-18	-	-

PHYLLIS

- Popular hart's tongue fern with glossy, smooth tongue-shaped fronds
- Upright, funnel-shaped growth
- Prefers semi-shady to shady locations

499738 **Phyllis** 104
Green

POLYSTICHUM ACULEATUM

HARD SHIELD FERN — DRYOPTERIDACEAE

Type					
Scuta	12-15	10-12	14-18	-	-

SCUTA

- Shiny, dark green leaves on top
- Evergreen, arching fronds up to 80 cm long
- Prefers semi-shady, fresh and humus-rich sites

499754 **Scuta** 104
Glossy dark green

HERRENHAUSEN

- Arching shoots with a pronounced midrib
- Multi-pinnate, rich green fronds
- Easy to care for and long-lived
- Evergreen, graceful fern for semi-shady locations

499766 **Herrenhausen** 104
Rich green

POLYPODIUM VULGARE

COMMON POLYPODY — POLYPODIACEAE

Type					
Poldy	12-15	10-12	14-18	-	-

POLDY

- Evergreen spotted fern with dark green, leathery foliage
- Flat spreading growth, ground-covering carpets due to runner formation
- Very hardy and drought tolerant
- Ideal under trees, for rock gardens and walls, also in shady areas
- Height of growth approx. 30 cm

499742 **Poldy** 104
Green

POLYSTICHUM SETIFERUM

SOFT SHIELD FERN — DRYOPTERIDACEAE

Type					
Congestum	12-15	10-12	14-18	-	-
Herrenhausen	12-15	10-12	14-18	-	-

CONGESTUM

- Native shield fern with cluster-like growth for semi-shady locations
- Overhanging, slightly dull green fronds with conspicuous, light brown spores on the underside
- New, silvery-haired fronds unfurl gracefully

499764 **Congestum** 104
Matt green

POLYSTICHUM TSUS-SIMENSE

KOREAN ROCK FERN — DRYOPTERIDACEAE

Type					
Roca	10-13	12-14	14-18	-	-

ROCA

- Low-growing fern for shady locations
- A dark midrib adorns the fronds
- Evergreen and hardy in sheltered locations

499780 **Roca** 104
Green

499738 Phyllis

499754 Scuta

499766 Herrenhausen

499742 Poldy

499764 Congestum

Princess Nadia	10-13	15	IV-V	-
Sugar Plum	11-13	15	IV-V	-
Feathered Friends	11-13	15	IV-V	-

ATROPURPUREA

- Ground cover with mahogany brown, dense foliage
- Blue flowers on short, stable peduncles
- Also good for plantings in autumn

401600 **Atropurpurea** 84
Blue, foliage mahogany brown

BLACK SCALLOP

- Shiny, dense foliage with an intense black brown colour
- Medium blue flowers
- Very good hardiness and heat tolerance
- Mildew resistant, an ideal, robust ground cover

401610 **Black Scallop** 84
Blue, foliage black-brown

BURGUNDY GLOW

- Carmine pink, white and grey/green patterned foliage
- Interesting as a decorative perennial or colourful ground cover

401620 **Burgundy Glow** 84
Blue, foliage tricolour

MINI MAHOGANY

- Ground cover with narrow, dark brown foliage and very good hardiness
- Very flat, dense growth habit, easy cultivation
- Early, medium blue flowers

401630 **Mini Mahogany** 84
Blue, foliage dark brown

401600 Atropurpurea

401610 Black Scallop

401620 Burgundy Glow

401630 Mini Mahogany

PRINCESS LEIA

- Contrasty patterned foliage with green / white colours until winter
- Attractive, blue flowering period from April
- Dense, compact growth without long runners
- Good winter hardiness

401633 **Princess Leia** 84
Blue, green-white foliage

401635 Princess Nadia

401624 Feathered Friends Fancy Finch

PRINCESS NADIA

- The narrow, colourfully patterned foliage forms a strong contrast to the attractive, blue flowers
- Very good winter hardiness
- Very flat, dense growth, easy to cultivate
- Also suitable as a potted plant for solitary use

401635 **Princess Nadia** 84
Blue, foliage tricolour

401640 Sugar Plum

401629 Feathered Friends Tropical Toucan

SUGAR PLUM

- Very healthy, pink, green and cream white coloured foliage
- Very good hardiness, tolerates heat and sun
- Resistant to mildew, an ideal, robust ground cover

401640 **Sugar Plum** 84
Blue, foliage pink

FEATHERED FRIENDS

- Ground cover with lime-green or bronze-coloured leaves
- Dense, well-branched growth
- Dark blue flowers in spring
- Ideal for semi-shaded locations
- Very good winter hardiness

401622 **Cordial Canary** 84
NEW Blue, foliage yellow-green

401624 **Fancy Finch** 84

Varieties for selling as foliage plants

APPLE CRISP

- White flowers above silvery green foliage, a fresh colour combination
- Very compact growing plants with attractive, curled foliage
- Short, firm flower stalks, ideal for flowering potted plants

448998 **Apple Crisp** 84
White

BERRY SMOOTHIE

- Vigorous type
- The foliage is violet-pink during the summer and changes to a striking, bright pink colour in the spring
- Heat tolerant variety

449010 **Berry Smoothie** 40 | 84
Pink

BLACK BEAUTY®

- Very intense, black/red foliage
- Wavy leaves

449015 **Black Beauty®** 84
Black red

CINNABAR SILVER®

- Silver foliage
- Round habit
- Exceptional, intense coloured, deep vivid red flowers on robust stems

449030 **Cinnabar Silver®** 84
Silver

ELECTRA

- Intense red venation on golden yellow foliage that later turns ochre yellow
- Cream white flowers on short stems
- Compact plants, ideal for pot cultivation

449035 **Electra** 40 | 84
Golden yellow, veined in red

FOREVER PURPLE

- Silvery, gleaming, violet foliage throughout the entire year
- Flat, round plant structure with little flower formation
- Robust and reliable growth
- A special colour for floristic arrangements in pink and violet

449042 **Forever Purple** 84
Violet / silver

FOREVER RED

- Intensely bright, copper red leaves with a slight curl
- Robust and healthy, vigorous habit
- Little formation of flowers in the first year, ideal as a structure plant in autumn
- The light pink flowers in the following year form a pleasant contrast

449043 **Forever Red** 84
Copper red

GREEN SPICE®

- Silvery green foliage with distinct, red venation
- Compact habit with no autumn flowers, ideal for mixed plantings
- Suitable for shade and partial shade

449050 **Green Spice®** 84
Silvery / green

LIME MARMALADE

- Lime green, slightly wavy foliage
- Vigorous, healthy habit with comparatively good tolerance to sunlight

449055 **Lime Marmalade** 84
Lime green

MARMALADE®

- Wavy, bronze-coloured foliage with a purple pink bottom side
- Very robust, ideal for sun and shade as well as for mixed autumn and spring plantings

449065 **Marmalade®** 40 | 84
Caramel colours

MIDNIGHT ROSE®

- Black / brown foliage with pink speckles
- Cream-coloured flowers
- Semi-spherical, compact habit
- Suitable for sunny and shady locations

449075 **Midnight Rose®** 84
Black-brown, mottled pink

OBSIDIAN®

- Smooth, black / brown foliage that does not fade in the sun
- Very robust and reliable cultivation
- Suitable for sunny and shady locations

449080 **Obsidian®** 40 | 84
Black / brown

PEACH FLAMBÉ®

- The large, fiery red-veined foliage changes in the winter to purple red
- Attractive play of colours during the entire year
- Medium strong habit, ideal for robust potted plants
- Suitable for sunny and partially shady locations

449095 **Peach Flambé®** 84
Red, veined

VELVET NIGHT®

- Smooth, silvery foliage with pink venation
- Vigorous, semi-round habit
- Less flowering during summer cultivation, ideal for use as an ornamental plant

449105 **Velvet Night®** 84
Silver

Varieties for selling with flowers

BELLA NOTTE

- Summer-blooming Heuchera with light pink flowers above dark brown foliage
- Good heat tolerance
- An attractive product for sales of blooming container plants

449005 **Bella Notte** 84
Dark brown

BLONDIE

- Dwarf variety with caramel-coloured foliage and a round plant habit
- Densely covered with yellow flowers, solid flower stalks
- Long, abundant flowering from May to October
- Ideal for pots and smaller beds

449016 **Blondie** 84
Caramel / yellow flowers

BLONDIE IN LIME

- The sister variety to 'Blondie' with lime green foliage and cream yellow flowers
- Similar growth characteristics

449017 **Blondie in Lime** 84
Lime green / cream yellow flowers

CHERRY COLA

- Warm, bright, vermilion flowers on short, strong stems
- Bronze-coloured foliage that is presentable in the winter
- Continuous flowering until late summer

449023 **Cherry Cola** 84
Brown / vermilion flowers

FIRE CHIEF

- Medium strong Heuchera with a rich summer bloom of pinkish white flowers
- Wine red to bronze-coloured foliage
- For sunny to shady locations

449040 **Fire Chief** 40 | 84
Wine red / bronze

MILAN

- Continuous bloomer with coral pink flowers on sturdy stems
- Veined, silvery summer foliage with brownish winter colouration
- An attractive plant for growing in containers and for sales of flowering plants

449077 **Milan** 84
Silver brown / pink flowers

PARIS©

- Green foliage with silver markings
- The long-lasting, crimson pink flowers appear constantly from May until the frost
- The robust stems are suitable for cutting

449090 **Paris©** 40 | 84
Green / crimson pink flowers

RUBY TUESDAY

- Intense, shining, chestnut-brown foliage with a silvery pattern and an attractive red colour in winter
- Harmonious plant structure thanks to a large number of smaller, strongly wavy leaves
- Rich thrust of sturdy pedicels with attractive, pink buds and white flowers

449102 **Ruby Tuesday** 84
Wine red/white blossom

SHANGHAI

- Violet-coloured when in bud, later silver-coloured with purple veins
- Long bloom with contrasting, white flowers
- Very robust and hardy
- An attractive variety for pots and containers for sales in early summer

449103 **Shanghai** 84
Violet silver / white flowers

TOKYO

- The dark red flowers form a strong contrast with the mint green, silver-veined foliage
- An attractive perennial for semi-shady locations
- Long-lasting flowering from July to the frost
- Compact growing, ideal for producing flowering potted plants

449104 **Tokyo** 84

SALVIA X SUPERBA

BALKAN CLARY — LAMIACEAE

1000		°C		
1500	I-IV/VI-VII*	20-22	6-8	5-6

*) Perennial cultivation

Type				
Edula	12-14/19*	30	VI-VIII	x
Salvatore	13-15/19*	35	VI-VIII	x
April Night	11-14/19*	30	V-IX	x
Blue Bouquetta	11-14/19*	20	V-IX	x
Ostfriesland	12-14/19*	30	VI-VIII	x

*) 3 plants/container

Generative varieties

EDULA

- Variety from generative propagation with dense flower spikes
- Blooms the same year if sown early
- Well-branched structure, evenly covered with flowers
- Uniform habit and beginning of flowering, ideal for efficient pot cultivation

476100 **Blue** 84 | 336 | SEED
Dark blue

476105 **Rose** 84 | 336 | SEED
Pink

476100 Edula Blue

474648 Goldblitz

475005 Moss Lime

476105 Edula Rose

Generative varieties

SALVATORE

- Large-flowered perennial sage with dark violet blue flowers and stems
- Vigorous, robust plants
- Ideal for quality potted plants and early sales

476115 **Salvatore** 336 | SEED
Purple blue

476115 Salvatore

Vegetative varieties

APRIL NIGHT

- Very early blooming variety for sales starting at the end of April
- Dark blue flower spikes on stable, upright stems
- Well-branched plants with dark foliage
- Very well suited for gardens, rich second bloom

476040 **April Night** 40 | 84 | URC
Dark blue

BLUE BOUQUETTA

- Low-staying sage for pots and smaller containers
- Intense blue flowers on very short and sturdy stems
- Can be safely rebloomed after cutting back
- Very good winter hardiness

476041 **Blue Bouquetta** 128 | URC
Dark blue

OSTFRIESLAND

- Strong peduncles with an upright habit and dark purple blue, long inflorescences
- The plants ensure shape and colour contrasts in perennial plantings

SCABIOSA COLUMBARIA

SMALL SCABIOUS — DIPSACACEAE

Type				
Barroca	11-13	30	V-IX	x

BARROCA

- Attractive, annual bedding plant with wine red flowers
- Upright flower stems above compact growing plants
- A speciality for enriching the bedding and balcony assortment
- Not completely hardy, height: approx. 30 cm

476800 **Barroca** 84 | URC
Wine red

476800 Barroca

SEDUM X CAUTICOLUM

HYBRID STONECROP — CRASSULACEAE

Type				
Robustum	11-13	20	VIII-X	x

ROBUSTUM

- Rockery perennial with bluish green foliage
- Blooms in autumn with bright, ruby red flowers
- Well-branched, healthy variety

477050 **Robustum** 40 | 128 | URC
Ruby red

477050 Robustum

SEDUM FLORIFERUM

ORANGE STONECROP — CRASSULACEAE

Type				
Weihenstephaner Gold	11-13	15	VI-VIII	-

WEIHENSTEPHANER GOLD

- Thick, golden yellow flower cushion
- The long-lasting foliage changes its colour in the autumn to reddish
- Easy-care ground cover, also good for temporarily dry locations

477075 **Weihenstephaner Gold** 128 | URC
Golden yellow

477075 Weihenstephaner Gold

SEDUM FORSTERIANUM

ROCK STONECROP — CRASSULACEAE

Type				
Elegans	11-13	15	VI-VII	-

ELEGANS

- Flat growing cushion perennial with silvery blue, pine-like shoots
- Firm, dense growth
- High tolerance to drought
- Yellow flowers starting in June

477095 **Elegans** 128
Yellow

477095 Elegans

WINTER LEMON

- Golden yellow cushion with bronze-coloured winter colouration
- Compact habit
- Good hardiness, ideal for autumn plantings

477155 **Winter Lemon** 128 | URC
Golden yellow foliage

MERIDA®

- The blue/green foliage changes to a deep red when the light intensity is high
- The pink buds turn a bright, deep red colour in autumn
- Spherical, firm habit, ideal for pot cultivation
- Height: approx. 20 cm

SEDUM KAMTSCHATICUM

VARIEGATED STONECROP — CRASSULACEAE

Type				
Variegatum	11-13	15	VI-VII	(x)

VARIEGATUM

- Dark green foliage with attractive, golden yellow edge
- Compact habit
- High-quality rockery perennial

477185 **Variegatum** 128 | URC
Yellow / red

477185 Variegatum

SEDUM SPURIUM

CAUCASIAN STONECROP — CRASSULACEAE

1000		°C		
1500/5000*	I-III	18-20	10-16	6-8

*) Multi-seed sowing

Type				
Mahogany Red	11-15*	15	VIII-IX	(x)
Tricolor	11-15*	15	VI-VIII	(x)
Voodoo	11-15*	15	VI-VIII	-

*) 1-3 plants/pot

MAHOGANY RED

- Dense cushions with brown-red foliage
- Crimson flowers in late summer
- For rock gardens and planters in sunny and partially shaded sites

477237 **Mahogany Red** 128
Carmine pink

TRICOLOR

- Plant with flat-topped, spherical to spreading habit and pink flowers
- The evergreen, tricolour foliage is pink, white and green, very attractive during the entire year

477240 **Tricolor** 128 | URC
Pink

477240 Tricolor

477250 Voodoo

VOODOO

- Ground cover with flat-creeping habit and red flowers
- The bronze-coloured foliage is decorative all year round
- Simple cultivation
- Ideal for rockeries, pots and roof plantings

477250 **Voodoo** 336 | SEED
Red

SEDUM PELLUCIDA

LITTLE MISSY SEDUM — CRASSULACEAE

Type				
Little Missy	10-12	10	VI-VII	(x)

LITTLE MISSY

- Attractive, mint green leaves with cream white edges
- Delicate play of colours with pink buds and small, white flowers
- Richly branched, flat, round habit
- Tolerant to heat and drought
- Not hardy in Central Europe

477193 **Little Missy** 128
Mint green leaves with light edge

477193 Little Missy

477237 Mahogany Red

SEDUM TAKESIMENSE

TAKESHIMA STONECROP — CRASSULACEAE

Type				
Atlantis®	12-15	20	VI-VIII	-

ATLANTIS®

- Showy mint foliage with a creamy yellow edge
- Bright yellow flowers in summer
- Tolerates heat and drought, good winter hardiness
- Valuable addition to the perennial range

477265 **Atlantis®** 128 | URC
Yellow, variegated foliage

477265 Atlantis®

SEDUM X TELEPHIUM

HYBRID STONECROP — CRASSULACEAE

Type				
Herbstfreude	13-17/19*	50	VIII-X	x
Siesta®	13-17/19*	40	VIII-X	(x)

*) 3 plants/pot

HERBSTFREUDE

- A proven standard variety in the autumn assortment
- Large, rusty red flowers on long, sturdy stems
- Ideal for large container plants or bed plantings

477280 **Herbstfreude** 40 | 84 | URC
Rusty red

SIESTA® PINK

- Large, dense flower umbels in fresh pink
- Many shoots, stable plants
- Attractive container shrub for marketing in autumn

477292 **Siesta® Pink** 40 | 84
Pink

477280 Herbstfreude

477292 Siesta® Pink

SEMPERVIVUM X HYBRIDUM

HOUSELEEK — CRASSULACEAE

1000		°C		
1500/3-5000	II-VII	18-20	10-14	6-8

Type				
Hippie Chicks	9-12	5/20	V-VIII	-

HIPPIE CHICKS

- Hardy, evergreen structure plant with pink flowers
- Leaf rosettes in attractive colour variations
- Tolerant to heat and drought, ideal for smaller containers, green roofs and rock gardens

477450 **Hippie Chicks** 180 | SEED
Pink

477450 Hippie Chicks

CAMPION — CARYOPHYLLACEAE

1000		°C		
1500/5000*	I-III/VII-VIII**	18-21	10-14	4-5

*) Multi-seed sowing
**) Perennial cultivation

Type				
Celina	11-13	15	VI-VIII	x

CELINA

- Attractive plant that blooms in early summer with intense pink flowers and dark foliage
- Variety with very uniform growth
- Suited for advanced blooming under glass
- Limited hardiness

478050 **Celina** 336 | SEED
Pink

478050 Celina

SOLIDAGO CANADENSIS

CANADIAN GOLDENROD — ASTERACEAE

Type				
Little Lemon	15-19	40	VI-VIII	x40

LITTLE LEMON

- Dwarf Solidago with sulphur yellow flowers above dark green foliage
- Upright and stable habit without the formation of runners
- Attracts butterflies and other insects
- An attractive perennial for containers on balconies and terraces

478250 **Little Lemon** 40
Sulphur yellow

478250 Little Lemon

STOKESIA LAEVIS

STOKESIA — ASTERACEAE

Type				
Mels Blue	15-19	35	VIII-IX	x40

MELS BLUE

- Large, violet-blue flowers in late summer
- Bushy, stable plants with uniform growth
- Attractive container perennial for late summer sales

478420 **Mels Blue** 40 | 84
Violet-blue

478420 Mels Blue

THYMUS CITRIODORUS

LEMON THYME — LAMIACEAE

Type				
Goldy	11-13	15	VI-VII	-

Ground cover thyme

GOLDY

- Forms a dense carpet of golden-green leaves
- Light lemon fragrance
- Can also be used as an evergreen ground cover, height approx. 15 cm
- Ideal for containers, rock gardens and in herb beds

480640 **Goldy** 128 | URC
NEW Light pink, foliage yellow green

480640 Goldy

THYMUS PRAECOX

EARLY FLOWERING THYME — LAMIACEAE

Type				
Creeping Red	11-13	15	VI-VII	x

Ground cover thyme

CREEPING RED

- Ground cover with a dense carpet of purple flowers from early summer
- Ideal for stone gardens and between stepping stones
- Subtle thyme scent

480660 **Creeping Red** 128
Magenta red

480660 Creeping Red

VERONICA LONGIFOLIA

SPIKE SPEDWELL — SCROPHULARIACEAE

Type				
Berenice	13-14/19*	40	VI-VIII	x

*) 1-3 plants/pot

BERENICE

- Annual flowering Veronica for pot and container culture without the need for vernalisation
- Colour-intensive, stable flower spikes
- Firm, stable plant structure with high resistance to mildew and rust
- Height approx. 40 cm

482490 **Blue** 128 | URC
Dark blue

482495 **Pink** 128 | URC
Light pink

482490 Berenice Blue

THYMUS SERPYLLUM

SAND THYME — LAMIACEAE

Type				
Teracina	11-13	15	VI-VII	x

Ground cover thyme

TERACINA

- Intensely bright pink flowers
- Rich flowering over well-branched, compact plants
- Ideal for rock gardens, as ground cover and in containers

480670 **Teracina** 128 | URC
Pink

480670 Teracina

THYMUS PULEGIODES

BROAD-LEAVED THYME — LAMIACEAE

Type				
Archers Gold	11-13	15	VI-VII	x

Ground cover thyme

ARCHERS GOLD

- Yellow-leaved thyme with lilac-pink flowers
- Pleasant lemon fragrance
- Flat, dense, tufted growth habit
- Ideal for sunny locations, rock and herb gardens and in containers

480665 **Archers Gold** 128
Purple pink

480665 Archers Gold

482495 Berenice Pink

VERONICA SPICATA

SPIKE SPEDWELL — SCROPHULARIACEAE

Type				
Christa	13-19/23*	40	VI-VII	-/x40
Candles	13-14/19*	35	VI-VII	(x)/x40

*) 1-3 plants/pot

FESTUCA CINEREA

BLUE FESCUE — POACEAE

1000		°C		
1500/5000*	III-IV/V-VI**	18-20	10-20	6-7

*) Multi-seed sowing
**) Sales in the spring

Type				
Eisvogel	11-13	15/30	V-VI	-
Festina	11-13	20/40	V-VI	-

EISVOGEL

- Firm, silvery blue foliage
- Stable peduncles
- Maintains its colouring well into autumn
- Also ideal for dry, permeable locations

493190 Eisvogel 77

FESTINA

- Thick, spherical clumps with frosted leaves and blades in a rich blue
- Upright, delicate inflorescences

493200 Festina 180 | SEED

493190 Eisvogel

493200 Festina

FESTUCA GAUTIERI

BEARSKIN FESCUE — POACEAE

1000		°C		
1500/5000*	III-IV/V-VI**	18-20	10-20	6-7

*) Multi-seed sowing
**) Sales in the spring

Type				
Teddybär	11-13	15/30	V-VI	-

TEDDYBÄR

- Fresh green cushions of delicate blades
- Attractive as a ground cover and for borders

493230 Teddybär 84 | 180 | SEED

493230 Teddybär

FESTUCA OVINA

SHEEP FESCUE — POACEAE

Type				
Elijah Blue	11-13	15/30	V-VI	-

ELIJAH BLUE

- Evenly coloured, silvery blue plants
- Few flowers
- Very robust, good overwintering characteristics

493260 Elijah Blue 77

493260 Elijah Blue

FESTUCA VALESIACA

VOLGA FESCUE — POACEAE

1000		°C		
1500/5000*	III-IV/V-VI**	18-20	10-20	6-7

*) Multi-seed sowing
**) Sales in the spring

Type				
Buddy Blue	11-13	20/40	V-VI	-

BUDDY BLUE

- Very silvery blue foliage
- Robust, healthy and fast growth
- An attractive grass for autumn sales

493265 Buddy Blue 84 | 180 | SEED

493265 Buddy Blue

HOLCUS MOLLIS

CREEPING SOFT-GRASS — POACEAE

Type				
Variegatus	12-15	20/30	V-VI	-

VARIEGATUS

- Striped foliage rich in contrast
- Sprouts early, ideal for sales during the bedding and balcony plant season
- Early clipping directly after the bloom ensures new shoots

493280 Variegatus 77

493280 Variegatus

Perennial grasses

IMPERATA CYLINDRICA

BLADY GRASS — POACEAE

Type				
Red Baron	12-17	50	VI	-

RED BARON

- Ornamental grass with broad foliage that turns bright red in autumn
- For warm locations
- Hot seller in the autumn season

493300 Red Baron 28 | 77

493300 Red Baron

493330 Spiralis

493365 Blue Dart

KOELERIA GLAUCA

BLUE HAIR GRASS — POACEAE

1000		°C		
1500/5000*	III-IV/V-VI**	18-20	10-18	6-7

*) Multi-seed sowing
**) Sales in the spring

Type				
Coolio	11-13	20/40	VI-VIII	x

COOLIO

- Attractive grass with blue green foliage
- Spherical structure
- Ideal for cultivating in pots

493410 Coolio 180 | SEED

493410 Coolio

JUNCUS EFFUSUS

SOFT RUSH — CYPERACEAE

1000		°C		
1500/5000*	III-IV/V-VI**	18-20	14-21	8-9

*) Multi-seed sowing
**) Sales in the spring

Type				
Spiralis	12-15	30	VI-VIII	-
Blue Dart	12-15	40	VI-VIII	-

SPIRALIS

- Corkscrew-like, twisted blades in a deep green colour
- An eye-catcher as a potted plant or for designing gardens, e.g. at water's edge and in containers, height: approx. 30 cm

493330 Spiralis 84 | 180 | SEED

BLUE DART

- Steel blue, round leaves
- Stiffly upright habit
- Very adaptable to dryness and moisture
- An attractive, easy-care structure plant for the summer and autumn

493365 Blue Dart 84 | 180 | SEED

JUNCUS ENSIFOLIUS

SWORDLEAF RUSH — CYPERACEAE

1000		°C		
1500/5000*	III-IV/V-VI**	18-20	14-21	8-9

*) Multi-seed sowing
**) Sales in the spring

Type				
Starhead	11-13	20/25	VI-VIII	x

STARHEAD

- Upright growing rush with flattened blades
- Dark brown inflorescences
- Ideal for pots and using in damp locations in the garden, height: approx. 25 cm

493350 Starhead 180 | SEED

493350 Starhead

LIRIOPE MUSCARI

BLACK MONDO GRASS — CONVALLARIACEAE

Type				
Ingwersen	13-19	45	VIII-X	x

INGWERSEN

- Attractive, evergreen, late summer bloomer with lilac-coloured flowers
- Particularly rich and long blooming variety
- Robust, reliable variety, ideal for warm, shady locations

454850 Ingwersen 28

454850 Ingwersen

LUZULA NIVEA

SNOWY WOODRUSH — JUNCACEAE

1000		°C		
1500/5000*	III-IV/VI-VII**	18-20	10-18	5-6

*) Multi-seed sowing
**) Sales in the spring

Type				
Yeti	11-15	40/60	VI-VIII	-

YETI

- Slightly overhanging, narrow blades with white hairs sticking out
- White flower clusters on wiry peduncles, also suitable for cutting and drying
- Good for shady locations

493450 Yeti — 84 | 180 | SEED

493450 Yeti

LUZULA SYLVATICA

GREAT WOODRUSH — JUNCACEAE

1000		°C		
1500/5000*	III-IV/VI-VII**	18-20	10-18	6-7

*) Multi-seed sowing
**) Sales in the spring

Type				
Sherwood	11-13	20/40	V-VI	-

SHERWOOD

- Short, wide blades, slightly covered with hairs
- Ideal, robust ground cover for shady locations

493460 Sherwood — 84 | 180 | SEED

493460 Sherwood

MISCANTHUS SINENSIS

CHINESE SILVER GRASS — POACEAE

Type				
Adagio	3-5 L	100/150	VIII-X	-/x28
Brazil	3-5 L	80/130	VIII-X	-/x28
Cabaret	5-10 L	160/(240)	IX-X	-/(x)28

Perennial grasses

COSMOPOLITAN

- Broad, dark green blades with white edge
- Strong habit
- Medium early, copper red flowers

493520 Cosmopolitan 28

FERNER OSTEN

- Intense, red-coloured inflorescences with white tips from late summer
- Low growing
- Orange red autumn colouring

493530 Ferner Osten 28 | 77

GOLD BAR

- Low growing Miscanthus with intense, yellow, banded foliage
- Rich formation of side shoots
- Ideal for cultivating in pots and small containers

493535 Gold Bar 77

GRACILLIMUS

- Standard variety with round habit and smooth foliage
- Rarely flowers in Central Europe

493540 Gracillimus 77

KLEINE FONTÄNE

- Upright, less vigorous habit
- Harmonious growth
- Blooms early with silvery flowers

493560 Kleine Fontäne 28 | 77

KLEINE SILBERSPINNE

- Silvery inflorescences, very rich-blooming
- Smooth, narrow foliage

493570 Kleine Silberspinne 28 | 77

MALEPARTUS

- Upright, strong habit
- Compact, reddish inflorescences
- Broad foliage with golden orange autumn colouring

493580 Malepartus 28 | 77

MORNING LIGHT

- Stable, round-structured plants
- Narrow, upright foliage with light stripes
- Light pink inflorescences in warm years

493590 Morning Light 28 | 77

STRICTUS

- Green with yellow, horizontal stripes on the foliage
- Upright habit, late bloom

493610 Strictus 28 | 77

VARIEGATUS

- Very striking, white/green striped variety
- Vigorous habit
- Light pink flowers in warm years

493620 Variegatus 28 | 77

YAKA DANCE

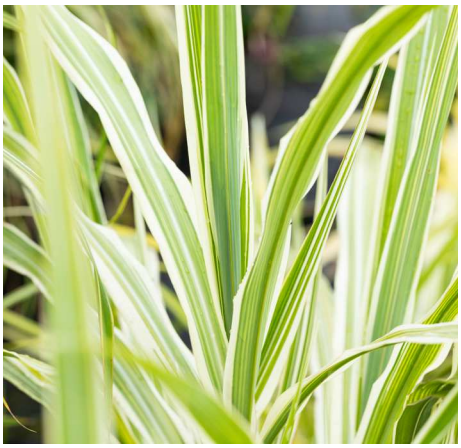
- Even at an older age the clumps are low growing and flat-round
- Slim, long lasting, green leaves with a lighter midrib
- Numerous, silvery flowers starting in September
- Ideal for smaller gardens and containers as well as public areas where varieties that grow too high would obscure the view

493625 Yaka Dance 77

ZEBRINUS

- Yellow striped foliage
- Upright blades that overhang at their tips
- Usually only flowers in geographic areas with favourable climatic conditions

493630 Zebrinus 28 | 77



493520 Cosmopolitan

493530 Ferner Osten

493535 Gold Bar

493540 Gracillimus

493710 Hänse Herms

493720 Heavy Metal

493725 North Wind

PENNISETUM X ADVENA

FOUNTAIN GRASS — POACEAE

Type				
Cherry Sparkler	12-15	40/60	VII-X	x
Fireworks	12-15	40/60	VII-X	x
Sky Rocket	12-15	40/60	VII-X	x

Do not cultivate below 16°C

CHERRY SPARKLER

- Mint green foliage with creamy white stripes and an attractive pink tinge
- Fluffy, pale pink inflorescences in late summer
- Fast growing grass for annual container cultivation

493875 Cherry Sparkler 77

FIREWORKS

- The striped foliage is covered with an intense, pink colour
- Attractive structure plant for summer plantings
- More compact than its sister variety 'Rubrum'
- Numerous, cream-coloured flowers from July
- Not hardy

493880 Fireworks 77

SKY ROCKET

- The overhanging foliage is bordered by a cream white edge
- Robust, vigorous growth throughout the entire summer
- Cream-coloured flowers from July
- Ideal for mixed plantings and as a solitary plant in containers
- Not hardy

493900 Sky Rocket 77

493875 Cherry Sparkler

493880 Fireworks

White

439000 **Mix** — 128 | SEED
Mix

AMAZON F1

- Bearded carnation with particularly long, heavy stems for underglass culture in winter and spring or outdoors in summer
- Uniform growth and timeliness with high-yield marketable stems
- Reliable flowering even without cold phase, height approx. 80 cm

439008 **Lavender Magic** — SEED
NEW
White, light purple maturing

439012 **Neon Cherry** — SEED
Cherry pink

439015 **Neon Purple** — SEED
Neon purple

439018 **Rose Magic** — SEED
White, ripening pink

BOUQUET PURPLE F1

- A cut carnation with bright, violet-pink inflorescences
- For cultivating outdoors and in greenhouses
- During summer cultivation, the plants will rebloom and a second cut is possible
- Due to the long flowering period, also suitable for bed plantings

439025 **Bouquet Purple F1** — 128 | SEED
Neon purple

BODESTOLZ F1

- Sweet William for outdoor cutting that blooms in the year of sowing
- A colourful mixture
- The bright, well-covered inflorescences bloom on straight, long stems, height: approx. 50 cm

439050 **Bodestolz Mix F1** — 128 | SEED
Mix

438990 Sweet Scarlet F1

Single stem varieties

SUNBRIGHT SUPREME F1

- Golden yellow flowers with large, dark centres
- Pollen-free flowers with a diameter of approx. 20 cm
- Good cutting quality and durability in vases

446625 **Sunbright Supreme F1** SEED
Golden yellow

446625 Sunbright Supreme F1

TIFFANY F1

- Robust cutting variety for cultivating outdoors
- Golden yellow petals and a jet-black, pollen-free centre
- Dark green, glossy foliage
- Cultivation time is approx. 1 week longer than 'Sunrich Orange' F1
- Particularly recommended for outdoor cultivation on self-cutting fields

446650 **Tiffany F1** SEED
Golden yellow

446650 Tiffany F1

FULL SUN F1

- Large, golden yellow petals and a black-brown ring without pollen
- Very robust, vigorous habit
- Particularly suited for outdoor cultivation in poorer soils
- Cultivation time is approx. 12 weeks

446660 **Full Sun F1** SEED
Golden yellow

446660 Full Sun F1

KING KONG

- A variety with impressive growth
- Ideal for competitions for the largest sunflower or for use in striking exhibition plantings
- Forms giant leaves and flowers on the up to arm-thick stems
- Provided that enough water and manure is supplied, the stable plants can reach a height of up to 4.5 m

446700 **King Kong** SEED
Yellow

446700 King Kong

SCHNITTWUNDER

- A well-tried variety with single stems and a black centre
- Golden yellow ring of ray florets
- Open-pollinated variety for semi-professional outdoor cultivation

446800 **Schnittwunder** SEED
Yellow

446800 Schnittwunder

Branched varieties

TANJA® F1

- Pollen-free, branched variety of type 'Sonja'
- Small, upright flowers with a diameter of approx. 10 cm
- Bright, golden orange petals and a contrast-rich, very dark centre
- Ideal for using in bouquets and arrangements

446900 **Tanja® F1** 128 | SEED
Golden orange, small-flowered

STARBURST F1

- Semi-double series with a branched habit
- Develops numerous, long lateral shoots early
- Attractive, pollen-free flowers in fresh colours

446920 **Lemon Aura** SEED
Lemon yellow

446925 **Panache** SEED
Golden yellow with dark centre

446900 Tanja® F1

446920 Starburst Lemon Aura F1

CLARET F1

- Intense, wine red-coloured cutting variety with little pollen
- Vigorous habit, early pruning promotes the development of high-quality side shoots
- An attractive variety for unique autumn arrangements

446990 **Claret F1** SEED
Wine red

446960 Rumi Bicolor Cherry F1

446925 Starburst Panache F1

GOLDRUSH F1

- Very early blooming, branched variety
- Yellow, pollen-free flowers with a dark centre and a diameter of 15 cm
- Early pruning promotes the formation of numerous solitary stems with a length of 80 cm
- Ideal for small-flowered products at the beginning of the season

446995 **Goldrush F1** SEED
Golden yellow with dark centre

446977 Dancing Sun F1

RUMI F1

- Vigorous plants form numerous flower stalks
- Medium-sized, pollen-free flowers in bright colours
- Wide spacing and pinching off the first bud promotes the formation of 5-7, high-quality flower stalks per plant
- Well suited for outdoor cultivation with a long harvesting period
- Due to the long flowering time, also interesting for background plantings in public areas

446945 **Gold** SEED
Golden yellow

446955 **Bicolor Scarlet** SEED
Golden yellow with red ring

446960 **Bicolor Cherry** SEED
Light yellow with cherry red ring

446945 Rumi Gold F1

446990 Claret F1

DANCING SUN F1

- Branching varieties for large containers and landscaping
- Golden yellow, pollenless flowers
- Long-lasting flowering period, repeat-blooming for several weeks
- Height approx. 120 cm

446977 **Dancing Sun F1** 128 | SEED
Golden yellow with dark centre

446955 Rumi Bicolor Scarlet F1

446995 Goldrush F1

MOULIN ROUGE F1

- An intense wine red coloured variety for cutting with flowers that are low in pollen
- Vigorous habit, early pruning promotes the formation of high-quality side shoots

447000 **Moulin Rouge F1** SEED
Dark red

SONJA

- Bright orange flowers with a diameter of 10 cm
- Very good, medium-long cutting quality
- Very well-branched plants

447100 **Sonja** SEED
Golden yellow, small-flowered

HOLIDAY

- Cutting variety with strong basal branching
- Long, solitary stems
- Golden yellow flowers with a dark centre
- For outdoor cultivation in the summer

447135 **Holiday** SEED
Golden yellow

RING OF FIRE

- A two-coloured cutting variety with a fiery red ring around the centre of the golden yellow flowers
- The individual flowers with approx. 50 cm long stems or the entire plant with 4 to 6 flowers can be harvested

447145 **Ring of Fire** SEED
Fiery red, golden yellow

SORAYA

- Golden orange flowers that grow almost horizontally on the very stable stems
- Produces only little pollen
- Branched habit
- An attractive enrichment for medium late to late harvests outdoors

447165 **Soraya** SEED
Golden orange

VERZWEIGTE MIX

- This mixture includes different pollen-free cutting varieties with branched growth for outdoor cultivation
- For diverse sunflower bouquets in different shades of yellow and red
- Rich development of side shoots allows harvesting to take place over many weeks without interruption

447215 **Verzweigte Mix** SEED
Mix

447000 Moulin Rouge F1

447135 Holiday

447100 Sonja

447145 Ring of Fire

447165 Soraya

Double blooming varieties

DOUBLE QUICK F1

- Variety for cutting with golden yellow, double flowers
- Short cultivation time
- The low stems are ideal for cut cultivation in the summer

446760 **Double Quick F1** SEED
Golden yellow

SANTA FE

- Particularly uniformly filled flowers in orange-yellow colours
- Stable, medium-sized growth
- For harvesting outdoors starting in August

446850 **Santa Fe** SEED
Orange yellow

HOHE SONNENGOLD

- Vigorous, late blooming variety
- Golden yellow, densely filled flowers on branched stems
- Ideal for direct marketing after outdoor cultivation

Type	/m²				
Tapestry	16-32	40	7-9	-	x

TAPESTRY

- Richly blooming mixture in colourful pastel shades
- Robust plants with stable stems and large umbels
- For long-blooming plantings in beds and for cutting

467150 **Tapestry** 128 | SEED
Mix

467150 Tapestry

RUDBECKIA HIRTA

CONEFLOWER — ASTERACEAE

1000		°C		
1500	II-IV	20-22	14-21	5-8

Type	/m²				
Cappuccino	12-16	60	8-10	-	-
Cherry Brandy	12-16	70	9-11	-	-
Goldilocks	12-16	50	8-10	-	-
Indian Summer	12-16	70	9-11	-	-
Prairie Sun	12-16	70	9-11	-	-

CAPPUCCINO

- Well-branched growth with very large flowers
- Vivid play of colours in yellow, red and bronze
- Ideal for container cultivation, height: approx. 40 cm

474855 **Capuccino** 128 | SEED
Bronze red shades

CHERRY BRANDY

- A cutting and bedding variety with wine red, medium-sized flowers
- Vigorous plants, height: approx. 70 cm
- Well suited for cutting or for structured bed plantings, also for public areas

474865 **Cherry Brandy** SEED
Cherry red

GOLDILOCKS

- Cutting and bedding variety with golden yellow, semi-double flowers
- Stable and robust
- Early and continuous bloom
- Flower size: approx. 8 cm, height: approx. 50 cm

474885 **Goldilocks** 128 | SEED
Golden yellow

INDIAN SUMMER

- Large, golden yellow flowers with dark centres and a diameter of approx. 12 cm
- Flowers keep very well in a vase if they are cut when in full bloom
- Robust plants with dark foliage
- Also suited for the production of impressive blooming containers, height: approx. 70 cm

474900 **Indian Summer** 128 | SEED
Golden yellow, large-flowered

PRAIRIE SUN

- Large, yellow flowers with cream yellow tips
- Ideal for the outdoor production of strong container plants
- Harvest when fully developed, very durable as a cut flower
- Very long flowering, height: approx. 70 cm

474915 **Prairie Sun** 128 | SEED
Light yellow with ring

474855 Cappuccino

474865 Cherry Brandy

474885 Goldilocks

474900 Indian Summer

Japonica	9-12	150	16-18	-	x (cobs)
Pastell	9-12	200	16-18	-	x (cobs)

BABY FINGERS MIX

- Mixture of unicoloured, slender cobs with a length of approx. 12 cm
- The cobs are densely covered with small kernels
- Early ripening
- Plant height: approx. 170 cm

489305 **Baby Fingers Mix** SEED
Mix

489305 Baby Fingers Mix

ERDBEERMAIS

- Small, strawberry-shaped cobs with dark red colouring
- Good yield of cobs
- Attractive decoration for autumn floristry, height: approx. 170 cm

489315 **Erdbeermais** SEED
Red

FIESTA

- Early maturing ornamental corn variety with approx. 20 cm long cobs
- Densely covered with colourful kernels in a mixture rich in contrast
- Stable with reliable yield, height: approx. 180 cm

489320 **Fiesta** SEED
Mix

JAPONICA

- White and pink stripes run through the foliage of this ornamental variety
- An attractive addition for larger floristic decorations, e.g. in combination with sunflowers
- Plant height: approx. 150 cm

489330 **Japonica** SEED
Pink / white / green striped foliage

PASTELL

- Large, densely filled cobs shimmer in warm, earth tones ranging from dark orange, pastel pink, olive green, dove blue to a warm gold colour
- Medium late variety with a cultivation period of approx. 100 days
- Length of cobs: approx. 20-25 cm
- Vigorous plants that reach a height of up to 250 cm

489345 **Pastell** SEED
Pastel shades

489330 Japonica

For fields and landscapes

BLÜTENTEPPICH FÜR BIENEN & SCHMETTERLINGE (NIEDRIG)

- An annual flower mixture to promote butterflies, bumblebees, honeybees and wild bees
- Great biodiversity with a lot of pollen and nectar
- Long flowering period in a colourful palette until late summer
- Low growth, ideal as marginal strips of areas where a clear view should be maintained, height: approx. 50 cm

494660 **Blütenteppich für Bienen & Schmetterlinge (niedrig)** SEED
Mix

Growing guides
at pro.volmary.com

BLÜTENSAUM FÜR BIENEN & SCHMETTERLINGE (HOCH)

- An annual flower mixture to promote butterflies, bumblebees, honeybees and wild bees
- Supplies lots of pollen and nectar
- Long flowering period until late summer
- The mixture does not contain any Brassica plants and is therefore well suited for rape and cabbage fields
- Strong growth with good surface coverage, ideal as a marginal strip for high crops or as a windbreak and privacy screen, height: approx. 120 cm

494663 **Blütensaum für Bienen & Schmetterlinge (hoch)** SEED
Mix

MEHRJÄHRIGE BLUMENMISCHUNG FÜR BIENEN & WILDBIENEN

- A flower mixture for perennial use that blooms already in the year of sowing
- Very wide variety of species, specially adapted to the needs of bees, wild bees and bumble bees
- Offers a high supply of pollen, nectar and nesting material for wild bees
- Ideal for promoting pollinating insects in fruit production, height: approx. 70 cm, individual plants up to 150 cm

494670 **Mehrjährige Blumenmischung für Bienen & Wildbienen** SEED
Mix

BLUMENMISCHUNG SINGVOGEL-WINTERFUTTER (HOCH)

- An annual flower mixture of species that offer the bird world a rich supply of seeds in a natural environment in autumn and winter
- Attractive, colourful blooms all summer long
- Also provides a rich food supply for bees and butterflies during flowering
- Vigorous growing, also suitable for area plantings or as a windscreen and privacy protection, height: approx. 150 cm

494679 **Blumenmischung Singvogel-Winterfutter (hoch)** SEED
Mix

NÜTZLINGSPARADIES, MEHRJÄHRIG

- A flower mixture for perennial use that blooms directly from the year of sowing
- For promoting pollinators and beneficial organisms in fruit and vegetable crops, agriculture and home gardens
- Diverse species composition that provides habitat and food for a wide variety of insects
- From the 2nd year of standing the flowering starts already in the spring and continues until late summer
- Ideal for permanent sowing at the edge of fields, height: approx. 70 cm

494676 **Nützlingsparadies, mehrjährig** SEED
Mix

NÜTZLINGSPARADIES, EINJÄHRIG

- A flower mixture for promoting pollinators and beneficial organisms in fruit and vegetable crops, agriculture and home gardens
- Diverse species composition that provides habitat and food for a wide variety of insects
- Rich and long-lasting flowering directly in the year of sowing, ideal for sowing in strips in the cultivation areas, height: approx. 70 cm

494673 **Nützlingsparadies, einjährig** SEED

494670 Mehrjährige Blumenmischung für Bienen & Wildbienen

494673 Nützlingsparadies, einjährig

BLÜHENDE GRÜNDÜNGUNG, EINJÄHRIG

- This mixture combines green manure with an attractive flowering effect
- Good soil coverage and competitive power against weeds
- Strong root penetration of the soil for loosening up and promoting tilth
- Contains legumes for nitrogen enrichment
- Ideal for improving the soil before planting high-quality permanent crops
- The species-rich composition also promotes bees, butterflies and beneficial insects, height: approx. 70 cm

494683 **Blühende Gründüngung, einjährig** SEED
Mix

494683 Blühende Gründüngung, einjährig

BLUMENMISCHUNG FÜR TROCKENE STANDORTE

- A annual and perennial flowering mixture of drought-tolerant species
- Diverse, species-rich composition with promoting effects for bees, wild bees, butterflies and beneficial insects
- Long lasting flowering period until late summer, height: approx. 70 cm

494686 **Blumenmischung für trockene Standorte** SEED
Mix

494686 Blumenmischung für trockene Standorte

DUFTBLUMENWIESE

- In addition to the decorative colour effect, this annual flowering mixture also exudes a variety of attractive fragrances
- Ideal along paths and fields with walkers or in public green areas
- The pollen and nectar attract a variety of bees and butterflies
- Robust and strong growth, height: approx. 80 cm

494693 **Duftblumenwiese** SEED
Mix

494693 Duftblumenwiese

ROBUSTE WEGBEGLEITER (EIN- UND MEHRJÄHRIG)

- A colourful flower mixture for sowing along paths and in public green areas
- Robust in growth and sprouts again after mowing, ideal for roadsides
- Rich and long lasting bloom already in the year of sowing
- Medium height without visual obstruction but with good competitive power, height: approx. 60 cm

494696 **Robuste Wegbegleiter (ein- und mehrjährig)** SEED
Mix

494696 Robuste Wegbegleiter (ein- und mehrjährig)

For balcony, garden and park

AMERIKANISCHE LANDBLUMEN

- This mixture from America contains summer flowers that radiate the wild charm of the blooming prairie
- Already after 8-10 weeks this country flower mixture begins to bloom in a variety of colours
- Rich colours are exhibited up until the frost, height: approx. 100 cm

494700 **Amerikanische Landblumen** SEED
Mix

BEETROMANTIK

- Early blooming flower mixture with a low growth height
- A harmonious play of colours which changes in the course of the year
- New colour combinations continue to appear in beds and large containers
- Also suited for fast pre-cultivation in pots and the subsequent sale of plants, height: approx. 40 cm

494730 **Beetromantik** SEED

Pumpkins for carving	12-16	(x)

Small-fruited varieties

ALADIN (C. MAXIMA)

- A small turban type with a dark orange upper side and cream-coloured centre
- The fruits reach a diameter of approx. 12-15 cm

419500 **Aladin** SEED

BABY BEAR (C. PEPO)

- A high yielding, orange pumpkin in an unusual intermediate size of approx. 0.8 to 1.2 kg
- Flat, round fruits with strong stems
- Medium-late ripening and good shelf life
- The husks of the seeds are thin, therefore well suited for roasting

419510 **Baby Bear** SEED

419510 Baby Bear

BABY BOO (C. PEPO)

- The white counterpart to 'Jack be Little'
- White, flat-spherical, ribbed fruits with golden yellow flesh
- Edible fruits with a diameter of approx. 10 cm

419520 **Baby Boo** SEED

419520 Baby Boo

BICOLOR PEAR (C. PEPO)

- Pear-shaped fruits, 10-15 cm in length
- The upper half is golden yellow, dark green below, some have light stripes
- Early and high yielding, vigorous habit

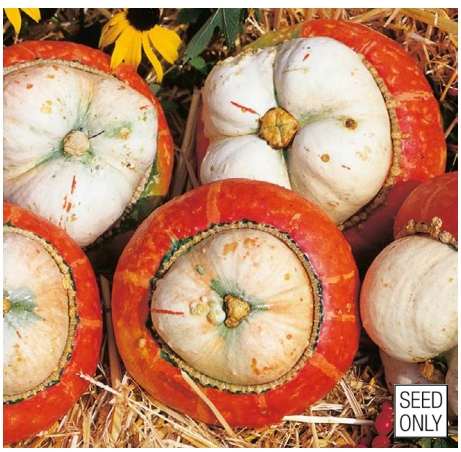
419550 **Bicolor Pear** SEED

419550 Bicolor Pear

BICOLOR SPOON (C. PEPO)

- Small, slender, club-shaped fruits, 12-15 cm in length
- The upper half is golden yellow, dark green below, some with cream white stripes
- Vigorous, climbing habit

419560 **Bicolor Spoon** SEED



419500 Aladin

419560 Bicolor Spoon

BLACK KAT F1 (C. PEPO)

- A ribbed blackish green pumpkin that turns orange late in October
- Bushy growth, early yield
- Good resistance to mildew
- Fruit weight: approx. 400-600 g, suitable for the microwave

419561 **Black Kat F1** SEED

BUSH DELICATA (C. PEPO)

- Elongated, cream-coloured fruits with green stripes
- Tender pulp, good variety for filling
- Little climbing habit
- Earlier harvesting

419564 **Bush Delicata** SEED

CASPERITA F1 (C. PEPO)

- White, flat, round, well-ribbed fruits with a weight of approx. 300 g
- Very much improved with regard to the colouration, yield and uniformity when compared to the small-fruited variety 'Baby Boo'
- Tolerant to powdery mildew
- Medium early ripening, ripening period: 90 days

419566 **Casperita F1** SEED

CELEBRATION F1 (C. PEPO)

- Heart-shaped, edible fruits with cream yellow main colour and green-yellow marking
- Slightly smaller fruits than 'Harlequin', diameter: approx. 10-12 cm, weight: approx. 600 g
- Medium early, good yield

419570 **Celebration F1** SEED

DELICATA (C. PEPO)

- Oblong, cream-coloured fruits with green stripes and slight grooves, length: approx. 20 cm
- Tender flesh

419590 **Delicata** SEED

FLAT STRIPED (C. PEPO)

- Flat, round, dark green, ornamental fruits with highly contrasting, light stripes
- Fruit size: approx. 8 cm
- Early and productive

419600 **Flat Striped** SEED

FLAME F1 (C. PEPO)

- Cream yellow pumpkin for microwaving with orange stripes and pronounced shoulder
- Diameter: approx. 8-10 cm
- Moderately slender
- Healthy growth, resistant to mildew

419605 **Flame F1** SEED

GOLD DUST F1 (C. PEPO)

- Very high yielding mandarin pumpkin with a moderately vigorous habit
- High resistance to powdery mildew
- Diameter: approx. 8-10 cm

419610 **Gold Dust F1** SEED

GREMLINS (C. PEPO)

- The warty ornamental fruits are versatile in their design and colour
- Contains star-shaped, pear-like, winged and mushroom-shaped fruits
- Medium early ripening, fruit size: approx. 12-15 cm

419630 **Gremlins** SEED

HARLEQUIN (C. PEPO)

- Flat, round, grooved fruits with shoulders
- The colours range from cream white to yellow with dark green spots
- Edible fruits with a very good shelf life
- Diameter: approx. 12 cm

419640 **Harlequin** SEED

HOARGARTH (C. PEPO)

- Golden yellow fruits with dark green markings reminiscent of spilled paint
- Attractive wart, flat-round fruit shape with a long stem
- Fruit size approx. 10-15 cm

419645 **Hoargarth** SEED

JACK BE LITTLE (C. PEPO)

- Bright orange fruits that resemble tangerines
- Diameter: 10-12 cm
- Attractive, edible ornamental pumpkin

419660 **Jack be Little** SEED

ICICLE (C. PEPO)

- White mini pumpkin with very good suitability for decorative purposes.
- Beautifully ribbed, edible fruits with thick stalk, fruit weight approx. 400-800 g
- Little climbing plants, good resistance to powdery mildew
- Harvest white fruits early and store in the dark

419655 **Icicle F1** SEED
NEW

LIL' ORANGE MON (C. PEPO)

- The skin of the tangerine-shaped fruits is intense bright orange
- The fruits reach a diameter of approx. 12-15 cm
- Very decorative, long, dark green stems

419670 **Lil' Orange Mon** SEED

419561 Black Kat F1

419564 Bush Delicata

419566 Casperita F1

419605 Flame F1

419645 Hoargarth

419570 Celebration F1

419610 Gold Dust F1

419660 Jack be Little

419590 Delicata

419630 Gremlins

419655 Icicle F1

419600 Flat Striped

419640 Harlequin

419670 Lil' Orange Mon

MINI RED TURBAN (C. MAXIMA)

- Orange-red, small, turban-shaped fruits with green and white stripes
- Ideal for bringing colour into ornamental pumpkin mixtures
- Diameter: approx. 10-12 cm

419690 **Mini Red Turban** SEED

LITTLE PUMP-KE-MON (C. PEPO)

- White, flattened fruits with yellow stripes
- An attractive contrast colour to orange and yellow fruits
- Fruit size: approx. 12 cm

419680 **Little Pump-Ke-Mon** SEED

MINIWARTS F1 (C. PEPO)

- Dense orange fruits covered with green warts.
- Fruit weight approx. 0.9-1.5 kg, diameter approx. 15 cm
- High resistance to powdery mildew
- Modest climber

419692 **Miniwarts F1** SEED
NEW

MISS SOPHIE PINK (C. MAXIMA)

- Salmon pink coloured, ornamentally ribbed fruits with eye-catching stems
- Very tasty, thin flesh
- Fruit weight: approx. 400-600 g, diameter: approx. 10-12 cm

419695 **Miss Sophie Pink** SEED

ROLET (C. PEPO)

- Dark green, glossy, slightly spherical balls with a smooth, hard skin
- Productive, brings good contrasts into the pumpkin assortment
- Edible when young, diameter: approx. 7 cm

419710 **Rolet** SEED

SAM ORANGE (C. PEPO)

- Golden orange 'Jack Be Little' type with very distinctive stems and larger fruits that have a diameter of approx. 10 cm
- Suitable for microwaving
- High resistance to mildew and reliable, high yield

419715 **Sam Orange** DE-ÖKO-013|SEED

SNOWBALL F1 (C. PEPO)

- Small, very white fruits with a pronounced stem and a highly rounded shape
- Grows compactly with an early start to yield
- Dark storage promotes the preservation of the white colour
- Fruit weight approx. 0.8-1 kg

419725 **Snowball F1** SEED

SPINNING GOURD (C. PEPO)

- Small, pear-shaped fruits with dark green skin and light stripes
- Fruit size: approx. 5-7 cm
- Can also be used in floristry as decorative fruits

419730 **Spinning Gourd** SEED

SWEET DUMPLING (C. PEPO)

- Tasty fruits with a diameter of 10-12 cm
- Dark green stripes and spots form a very striking contrast to the cream white skin
- Orange-yellow, sweet flesh
- The fruits keep approx. 3-4 months

419740 **Sweet Dumpling** DE-ÖKO-013|SEED

SWEET LIGHTNING (C. PEPO)

- Flat, round pumpkins in mandarin form with deep orange stripes and light-coloured skin
- The 500 g fruits are very tasty and can be cooked in the microwave

419750 **Sweet Lightning** SEED

WARZEN ORANGE (C. PEPO)

- Flat, round, light orange fruits that are covered with numerous warts
- Rich and reliable yield, keeps well
- Diameter: approx. 10 cm

419780 **Warzen Orange** SEED

WEE-B-LITTLE (C. PEPO)

- Very early, high yielding mini pumpkin
- Bright, golden orange skin and deep green-coloured stems
- The fruits are edible when young and can be used as "soup cup pumpkins"
- Diameter: approx. 10 cm

419790 **Wee-B-Little** SEED

419690 Mini Red Turban

419680 Little Pump-Ke-Mon

419692 Miniwarts F1

419695 Miss Sophie Pink

419710 Rolet

419740 Sweet Dumpling

Mixtures of small-fruited varieties

AUTUMN WINGS LARGE (C.PEPO)

- Elongated fruits with pronounced wings, warts and a curved neck
- Attractive colour combinations with approx. 25 cm fruit size

419799 **Autumn Wings Large** SEED

419715 Sam Orange

419750 Sweet Lightning

AUTUMN WINGS MEDIUM (C. PEPO)

- Mixture of heavily winged fruits in attractive colour combinations
- Medium-sized fruits, ideal for decorative purposes
- Good fruit set, fruit size: approx. 20 cm

419800 **Autumn Wings Medium** SEED

419725 Snowball F1

419780 Warzen Orange

419799 Autumn Wings Large

419730 Spinning Gourd

419790 Wee-B-Little

419800 Autumn Wings Medium

AUTUMN WINGS SMALL (C. PEPO)

- Mixture of small-fruited, heavily winged fruits in attractive colour combinations
- Early and rich yield, fruit size: approx. 15 cm

419810 **Autumn Wings Small** SEED

DAISY (C. PEPO)

- Mixture of slightly star-shaped fruits in yellow shades
- Attractive, two-coloured markings
- Fruit diameter: up to approx. 8 cm

419820 **Daisy** SEED

ESSBARE ZIERKÜRBISSE MIX (C. PEPO)

- Interesting mixture of small, edible fruits up to 20 cm in diameter
- Different combinations of colours and shapes
- Good durability, also suitable for decorative purposes

419830 **Essbare Zierkürbisse Mix** SEED

FAVORITA MIX F1 (C. PEPO)

- A high-contrast mixture of mandarin-shaped fruits
- All varieties grow bushy and are early bearing
- Suitable for microwaving
- Good resistance to mildew

419835 **Favorita Mix F1** SEED

GALAXY OF STARS (C. PEPO)

- The predominately star-shaped fruits each form five stable, rounded rays
- Easy to clean mechanically after the harvest
- The mixture consists of many attractive colours
- Fruit size: approx. 300 g

419840 **Galaxy of Stars** SEED

GIZMO (C. PEPO)

- Star-shaped ornamental fruits with a large variety of colours and approx. 12 cm in diameter
- Rich and secure yield
- Bushy growth

419845 **Gizmo** SEED

GOBLIN EGGS MIX (C. PEPO)

- Egg-shaped ornamental pumpkin in a mixture of green, yellow and two-coloured fruits
- Fruit size: approx. 10 cm

419850 **Goblin Eggs Mix** SEED

KLEINFRÜCHTIGE SONDERFORMEN MIX (C. PEPO)

- Small-fruited formula mixture with a large variety of shapes
- An attractive mixture of one and multi-coloured fruits
- Fruit size: up to approx. 15 cm

419870 **Kleinfrüchtige Sonderformen Mix** SEED

LITTLE INDIAN MIX (C. PEPO)

- Small-fruited mixture with many warts
- Variously shaped fruits in yellow and green shades
- An important part of the ornamental pumpkin range
- Fruit size: approx. 10-12 cm

419890 **Little Indian Mix** 84 | SEED

MAYA MIX (C. PEPO)

- Contrastingly colored fruits in a special variety of shapes
- Robust, lush, climbing plants
- Abundant yield that sets in early, long-lasting, approx. 10 cm large fruits

419893 **Maya Mix** SEED

KLEINFRÜCHTIGE MIX (C. PEPO)

- Small, predominantly spherical to egg-shaped fruits in different shapes and colours

419860 **Kleinfrüchtige Mix** SEED

KRONEN MIX (C. PEPO)

- Striking, jagged fruits in white, green or yellow with stripes or a two-coloured pattern
- A true eye-catcher in the assortment of ornamental pumpkins
- Fruit size: approx. 10-15 cm

419880 **Kronen Mix** SEED

WARZEN MIX (C. PEPO)

- The flat, round fruits are densely covered with warts
- Different fruit shapes and colours in a size of 8-15 cm
- Robust and reliable yield

419910 **Warzen Mix** SEED

WARZEN SONDERFORMEN MIX (C. PEPO)

- Heavily warted fruits in a manifold of colours and different shapes
- Contains a wide range for a high-quality assortment of ornamental pumpkins
- Fruit size: approx. 10-15 cm

419920 **Warzen Sonderformen Mix** SEED

419810 Autumn Wings Small

419820 Daisy

Acorn squash

GREEN TANGERINE F1 (C. PEPO)

- A dark green acorn squash with orange flesh
- Sweet taste and small core
- High resistance to mildew and bushy habit
- Good shelf life
- Fruit weight: approx. 700 g, diameter: 11-14 cm

419625 **Green Tangerine F1** DE-ÖKO-013|SEED

419625 Green Tangerine F1

HONEY BEAR F1 (C. PEPO)

- Small-fruited acorn squash with sweet, very starchy flesh
- Fruit weight: approx. 500 g
- Bushy growing plants with early, dense fruit set
- Tolerant to mildew
- Ideal single squash for direct marketing

419650 **Honey Bear F1** SEED

419650 Honey Bear F1

MINI ACORN GOLD (C. PEPO)

- Golden yellow mini acorn with a fruit weight of approx. 500 g
- Sweet, tender flesh
- Medium early yielding, fruits can be stored well
- Robust, vigorous plants

419685 **Mini Acorn Gold** SEED

419685 Mini Acorn Gold

WHITE PEARL (C. PEPO)

- Small, almost round acorn squash with white skin for decoration and food purposes
- Bushy growth with few tendrils
- The yellow-fleshed fruits reach about 500 g in weight

419793 **White Pearl** SEED

419793 White Pearl

TABLE MIX (C. PEPO)

- Attractive mix of three different coloured, grooved acorn squashes
- Little creeping, early yield
- Golden yellow, edible flesh
- Fruit size: approx. 20 cm

419900 **Table Mix** SEED

419900 Table Mix

Butternut squash

ANGELIQUE (C. MOSCHATA)

- Small, round fruits with an ochre-yellow colour
- High-quality, thick flesh and small seed cavity
- Attractive butternut for smaller households, fruit weight approx. 1 kg

420087 **Angelique** SEED

ARIEL F1 (C. MOSCHATA)

- Butternut squash with a high yield potential and very uniform fruits that weigh 1-1.5 kg
- Fruits have a low tendency to crack and a large amount of flesh
- The vigorous growing plants and the high resistance to powdery mildew ensure a long growth phase

420090 **Ariel F1** SEED

BARBARA (C. MOSCHATA)

- A green butternut squash with light stripes
- The fruit flesh has an excellent quality, intense colouring and is very tasty
- Requires heat during cultivation, pre-cultivation in the spring is recommended for cooler locations
- Fruit weight: approx. 2-3 kg

420100 **Barbara** SEED

ATLAS F1 (C. MOSCHATA)

- Very reliable butternut squash with large, elongated fruits that weigh approx. 2-3 kg
- The good fruit set over a long period of time ensures a high yield
- High sugar content and good flavour, ideal for processing

420095 **Atlas F1** SEED

BEJA (C. MOSCHATA)

- Larger butternut with 2–2.5 kg fruit weight
- Peel changes colour from dark green to bright bronze
- Deep orange, carotene-rich flesh of excellent quality

420104 Beja SEED

420087 Angelique

420110 Early Butternut F1

EARLY BUTTERNUT F1 (C. MOSCHATA)

- Bell-shaped, pale yellow coloured musk pumpkin.
- Orange-coloured, sweet-aromatic flesh
- Medium-early fruit set, fruit weight approx. 1.3 kg

420115 Early Butternut F1 SEED

420090 Ariel F1

420125 Honeynut

HONEYNUT (C. MOSCHATA)

- Mini butternut squash with dark orange flesh and a melon aroma
- The cylindrical fruits that weigh approx. 600 g change colour from green to brown
- Good resistance to mildew

420125 Honeynut SEED

420100 Barbara

420130 Hunter F1

HUNTER F1 (C. MOSCHATA)

- Early maturing butternut squash with a fruit weight of approx. 1.2 kg
- High yielding, long fruits
- 'Hunter' F1 bears fruits early and reliably, even under cooler conditions

420130 Hunter F1 SEED

JUPITER JWS 6823 F1 (C. MOSCHATA)

- Smaller butternut with a high level of yield
- Uniform fruit size, high proportion of marketable fruit
- Forms short tendrils
- Good mildew resistance

420133 Jupiter JWS 6823 F1 SEED

420095 Atlas F1

420104 Beja

420133 Jupiter JWS 6823 F1

LONGUE DE NICE (C. MOSCHATA)

- Fruits with a length of up to 1 m that thicken towards the end
- The dark green, smooth skin later turns light brown
- Very durable and good storability
- Sweet flesh, fruit weight: approx. 6-10 kg

420135 **Longue de Nice** SEED

PIENA DI NAPOLI (C. MOSCHATA)

- Heavy, club-shaped fruits that mature from green to orange
- Thicker and heavier than 'Longe de Nice'
- The tasty fruits have firm, orange flesh, fruit weight: 10-20 kg

420144 **Piena di Napoli** SEED

VEENAS F1 (C. MOSCHATA)

- A small butternut squash with good skin quality and durability
- The fruits weigh 0.6-1.2 kg and have a high percentage of flesh
- Good resistance to mildew
- Ideal for selling single fruits

420155 **Veenas F1** SEED

METRO F1 (C. MOSCHATA)

- Very uniform butternut type with medium-sized fruits that weigh approx. 1.4 kg
- Highly tolerant to powdery mildew
- High dry substance content and good shelf life
- Short shoots and medium-late ripening fruits with smooth, light brown skin

420140 **Metro F1** SEED

GRANITE F1 (C. MOSCHATA)

- A reliable and proven main variety for professional cultivation
- High proportion of marketable fruits, few bursts, good shelf life
- Early fruit set, fruit weight when ripe: approx. 1.5-2 kg

420117 **Granite F1** SEED

SONCA (C. MOSCHATA)

- Medium-sized butternut with 1–1.5 kg fruit weight
- The skin changes colour from dark green to bright bronze
- Known as ham pumpkin in Hungary
- Dark orange, firm flesh of excellent quality

420148 **Sonca** SEED

MIELUNA F1 (C. MOSCHATA)

- Early bearing butternut with very uniform fruit size.
- Fruit weight approx. 1-1.3 kg
- Rich and secure fruit set
- Good resistance to powdery mildew

420141 **Mieluna F1** SEED
NEW

PLUTO F1 (C. MOSCHATA)

- The long-lasting fruit set and the low tendency to crack ensure a high yield of medium-sized fruits that weigh 1-2 kg
- Good quality of the flesh, ideal for processing
- The vigorous plants have good resistance to mildew

420146 **Pluto F1** SEED

420135 Longue de Nice

NUTTERBUTTER (C. MOSCHATA)

- Open-pollinated butternut with approx. 1.5 kg fruit weight
- Uniformly shaped fruits with good flesh quality
- Medium-strong climbing quality

420142 **Nutterbutter** DE-ÖKO-013|SEED
NEW

PILGRIM F1 (C. MOSCHATA)

- A reliable and proven main variety for professional cultivation
- High proportion of marketable fruits, few bursts, good shelf life
- Early fruit set, fruit weight when ripe: approx. 1.5-2 kg

420145 **Pilgrim F1** 84 | SEED

420140 Metro F1

PIXY F1 (C. MOSCHATA)

- High-yield butternut with a fruit weight of approx. 1-1.2 kg.
- Uniformly shaped fruits with good flesh colour and flavour.
- Robust in growth and medium-strongly climbing

420143 **Pixy F1** DE-ÖKO-013|SEED
NEW

ULTRA F1 (C. MOSCHATA)

- Large-fruited butternut squash with oblong, slightly curved fruits
- Vigorous habit and medium late maturing
- Fruit weight: 4-5 kg, ideal for processing

420150 **Ultra F1** SEED

420141 Mieluna F1

420142 Nutterbutter

420145 Pilgrim F1

Moschata

AUTUMN CROWN F1 (C. MOSCHATA)

- Small Moschata pumpkin with a fruit weight of approx. 2 kg
- The flat, round, light brown fruits are slightly ribbed
- Light orange flesh
- Aromatic, slight melon-like flavour
- Good shelf life and a high ornamental value

420200 **Autumn Crown F1** SEED

420140 Pixy F1

420150 Ultra F1

BUTTERKIN (C. MOSCHATA)

- Small-fruited Moschata pumpkin with a fruit weight of approx. 1.5 kg, ideal for smaller households
- Light brown skin, high content of deep orange coloured flesh
- Early ripening for a Moschata pumpkin after approx. 100 days, short tendrils

420205 **Butterkin** SEED

420144 Piena di Napoli

420155 Veenas F1

420205 Butterkin

HIDEMI (C. MOSCHATA)

- Light brown, grey-frosted fruits with strong ribbing of type Futsu Black Rinded
- Earlier and more uniform yield
- Very durable and tasty
- Fruit weight: approx. 1-1.5 kg

420215 **Hidemi** SEED

MINI MUSK (C. MOSCHATA)

- A Moschata pumpkin with smaller fruits that weigh approx. 5 kg, short tendrils
- Firm, ochre-coloured flesh with the popular, aromatic flavour of the Moschata pumpkin
- Late ripening, requires warmth, protected pre-cultivation is recommended

420220 **Mini Musk** DE-ÖKO-013|SEED

MUSCAT DE PROVENCE (C. MOSCHATA)

- Popular, tasty pumpkin for cooking
- Flat, round, light brown fruits have an orange, appetisingly bright flesh
- Relatively late maturing, ripens in storage from green to orange
- Diameter: 30-40 cm, height: 20 cm, good for storage

420225 **Muscat de Provence** 84|DE-ÖKO-013|SEED

PANTHER (C. MOSCHATA)

- Small nutmeg pumpkin with a fruit weight of approx. 4-5 kg
- The flat, round, light brown fruits are slightly ribbed and change colour from green to brown
- Golden yellow, tasty flesh
- Good durability and a high ornamental value

420235 **Panther** SEED

SWEET BERRY (SUCRINE DU BERRY)

- A traditional variety from France with sweet, orange-yellow flesh
- Medium-sized, oval and pear-shaped fruits that change colour from green to ochre-brown
- Fruit weight: 1.5-2 kg, the ideal size for family households

420245 **Sweet Berry** SEED

420215 Hidemi

420220 Mini Musk

420225 Muscat de Provence

420235 Panther

420245 Sweet Berry

Hokkaido squash

BLUE KURI (C. MAXIMA)

- Greyish blue, flat, round, fruits with orange, very tasty flesh
- Good storability
- Fruit weight: approx. 1.5 kg

420320 **Blue Kuri** DE-ÖKO-013|SEED

AMORO F1 (C. MAXIMA)

- Heart-shaped Hokkaido with a high yield potential of up to 40 t/ha
- Orange skin with light stripes
- Very compact bush type that does not climb
- High proportion of golden orange fruit flesh with a good flavour
- Seed set separates itself well from the fruit flesh, making it easy to take the seeds out

420295 **Amoro F1** 84|DE-ÖKO-013|SEED

BONBON F1 (C. MAXIMA)

- Dark green, flat-topped, round to blocky fruits with light stripes and a greenish grey centre
- Golden yellow, sweet and delicate flesh
- Awarded with the All American Selections Medal
- Fruit weight: approx. 2 kg

420330 **Bonbon F1** SEED

COLINKY (C. MAXIMA)

- A Hokkaido for professional field cultivation with the classic Hokkaido shape
- Solid, bright orange skin
- High sugar content
- High yield level, fruit weight: approx. 1-1.5 kg

420332 **Colinky** SEED

DOLCEVERA F1 (C. MAXIMA)

- A convincing Kabocha squash with green skin
- Golden yellow, tasty flesh
- Uniform fruit size of approx. 1.5-1.8 kg
- Robust crop, reliable yield

420333 **Dolcevera F1** SEED

420295 Amoro F1

FICTOR (C. MAXIMA)

- Dark orange Hokkaido with smaller sized fruits, ideal for retailers
- Good flavour
- Uniform fruit size and colouration
- Very good durability until the end of January

420335 **Fictor** DE-ÖKO-013|SEED

420335 Fictor

GUSTAR F1 (C. MAXIMA)

- Large-fruited Hokkaido for gastronomy and industrial processing.
- globose, very uniform fruits weighing approx. 2.5-3 kg
- Good flesh quality and easily cooked skin
- Fruits can be stored well
- Strong, robust growth

420615 Orange Patisson

420650 Starship F1

SUNBURST F1 (C. PEPO)

- Bright yellow, spinning top-shaped scallopini with green spots on the calyx
- Ideal harvest size for consumption: 6-7 cm
- High yielding and excellent flavour
- Bushy habit
- Also suitable for autumn decoration when fully developed

420660 Sunburst F1 SEED

420670 Patisson Strie Melange

PATISSON STRIE MELANGE (C. PEPO)

- A mixture of decoratively striped, UFO fruits
- Fruits are edible when they are young
- Diameter of the ripe fruits: approx. 20-25 cm

420670 Patisson Strie Melange SEED

420680 Patisson Warted Mix

PATISSON WARTED MIX (C. PEPO)

- A colourful mixture of UFO-shaped fruits that are covered with warts
- Bushy habit
- Durable, decorative pumpkin when the fruits are fully developed

420680 Patisson Warted Mix SEED

420690 Patisson Mix

PATISSON MIX (C. PEPO)

- Mixture of differently coloured UFO fruits
- Little creeping
- Diameter: approx. 20 cm

420690 Patisson Mix SEED

420660 Sunburst F1

SPAGHETTI (C. PEPO)

- Cream-coloured, light yellow fruits when ripe
- Standard variety with fruits that weigh 1.5-2 kg
- Fibrous flesh, similar to spaghetti after cooking
- Vigorous habit

420840 Spaghetti SEED

STRIPETTI F1 (C. PEPO)

- A good tasting spaghetti squash with long fruits
- Cream white skin with green stripes
- Weight: approx. 1-1.5 kg

420860 Stripetti F1 SEED

420820 Small Wonder

Spaghetti squash

SMALL WONDER (C. PEPO)

- Small-fruited, yellow spaghetti squash with a weight of approx. 700 g
- Ideal for single households
- Early and very rich fruit set

420820 Small Wonder SEED

420840 Spaghetti

420860 Stripetti F1

Large-fruited varieties

BLUE DOLL (C. MAXIMA)

- Flat, round, large fruits with silver-blue, shimmery skin
- Dark orange, edible flesh
- Late ripening, pre-cultivation improves the yield
- Resistant to powdery mildew
- Attractive ornamental pumpkin, fruit weight: approx. 10 kg

421035 **Blue Doll** SEED

BLUE HUBBARD (C. MAXIMA)

- Pear to top-shaped fruits with greyish blue colour and grooved skin
- The orange flesh is edible
- Vigorous habit, fruit size: approx. 40 cm

421040 **Blue Hubbard** SEED

CINDERELLA (C. MAXIMA)

- Bright red, flat fruits with marked ribs and a reliably high yield
- Good shelf life and edible, golden yellow flesh
- An attractive ornamental pumpkin with a diameter of approx. 40-50 cm

421060 **Cinderella** SEED

CROOKNECK (C. PEPO)

- Golden yellow, club-shaped fruits with bent necks
- Densely covered with warts
- Early maturing, little creeping
- Fruit length: approx. 25 cm

421070 **Crookneck** SEED

CROWN PRINCE F1 (C. MAXIMA)

- Flattened, greyish white fruits with smooth skins
- The flesh is particularly tasty and sweet
- Vigorous habit
- Good shelf life, fruit weight: approx. 3-5 kg

421080 **Crown Prince F1** SEED

421060 Cinderella

CUSHAW GREEN STRIPE (C. PEPO)

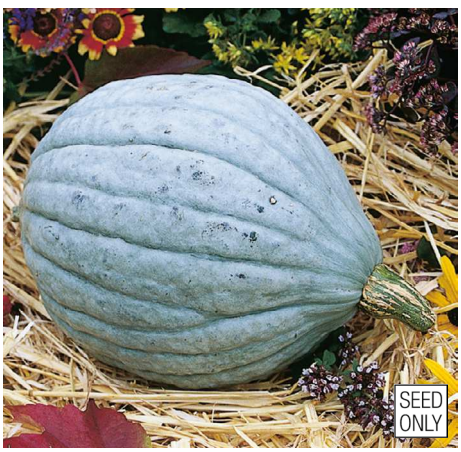
- Pear-shaped pumpkin with white skin and green stripes and spots
- Edible, keeps well
- Prefers warm locations, pre-cultivation is recommended
- Fruit size: approx. 40 cm

421090 **Cushaw Green Stripe** SEED

421070 Crookneck

421035 Blue Doll

421080 Crown Prince F1



421040 Blue Hubbard

421090 Cushaw Green Stripe

ATLANTIC GIANT (C. MAXIMA)

- Giant pumpkin for competitions, single fruits can reach more than 400 kg
- Light orange skin with slight grooves
- Edible flesh
- Vigorous tendrils

421110 **Atlantic Giant** SEED

FLAT WHITE BOER (C. MAXIMA)

- Cream white, flat, round fruits with a diameter of approx. 40 cm
- Vigorous habit
- Edible, fruit weight: approx. 8-10 kg

421130 **Flat White Boer** SEED

GALEUSE D'EYSINES (C. MAXIMA)

- Flat, round fruits with light orange colour are strikingly covered with light warts
- The warts resemble peanuts, therefore it is also called peanut pumpkin
- Edible, fruit size: approx. 30 cm

421150 **Galeuse d'Eysines** SEED

GARBO (C. MAXIMA)

- Pink to terracotta-coloured fruits with flat, round shapes and distinct ribs
- Very decorative for floristry in autumn
- Good durability and suitability for soups
- Fruit weight: approx. 1-3 kg

421160 **Garbo** SEED

GELE REUZEN (GELBER ZENTNER) (C. MAXIMA)

- Popular, yellow-skinned, giant pumpkin with apricot-yellow, coarse skin and a flat, round shape
- Good flavour and particularly suitable for sweet/sour canning
- Good shelf life, fruit weight: approx. 12 kg
- Very vigorous habit

421170 **Gele Reuzen (Gelber Zentner)** SEED

ISTANBUL (C MAXIMA)

- Blue-gray ribbed selection of the popular Turkish honey squash
- Strong growing plants that need warmth
- Deep orange, sweet pulp with a pleasant aroma
- Fruit weight approx. 8-12 kg

421189 **Istanbul** SEED

FUNGO (C. MAXIMA)

- Uniform, medium-sized turban pumpkins with a predominantly orange-red colour
- Medium-strong trailing, plants that set off early

421137 **Fungo** SEED

JARRADAHLE (C. MAXIMA)

- Greyish blue, flat, round fruits with striking, marked grooves
- Edible and also durable as a decorative pumpkin
- Diameter: approx. 25 cm

421190 **Jarradahle** SEED

KAMO KAMO (C. PEPO)

- Small 'Tonda Padada' type with distinct ribbing
- The fruits mature from dark green to ochre yellow
- Edible, fruit diameter: approx. 15 cm

421200 **Kamo Kamo** SEED

KNUCKLE HEAD F1 (C. PEPO)

- The vertically oval fruits are covered with eye-catching warts
- Dark orange skin colour, slightly ribbed
- Fruit weight: approx. 5-7 kg

421210 **Knuckle Head F1** SEED

INVINCIBLE F1 (C. MAXIMA)

- Whitish grey, flat, round pumpkin with a good flesh quality and improved characteristics: easy to peel, easy to cut
- Deep orange, thick flesh
- Compact growing and uniform, early ripening
- Good shelf life, fruit weight: approx. 4.5 kg

421187 **Invincible F1** SEED

GRIZZLY BEAR F1 (C. PEPO)

- Light brown fruits with pronounced warting and strong stalk.
- High yield of uniform fruits of approx. 3 kg
- Resistant to powdery mildew
- Eye-catching decorative pumpkin, also suitable for eating

421183 **Grizzly Bear F1** SEED
NEW

MARINA DI CHIOGGIA (C. MAXIMA)

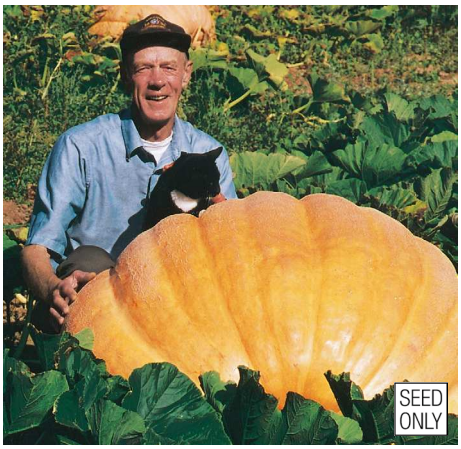
- Greyish green, warted, turban-shaped, diameter: approx. 25 cm
- Edible, orange-red flesh

421270 **Marina di Chioggia** SEED

MOONSHINE F1 (C. PEPO)

- Very uniform, white-coloured, medium-sized fruits that weigh approx. 3-5 kg
- The skin is very smooth, the long stems are dark green

421280 **Moonshine F1** SEED



421110 Atlantic Giant

421130 Flat White Boer

PENELOPA (C. PEPO)

- Pumpkin with skinless seeds for eating or baking and for producing pumpkin seed oil
- A high yielding, proven variety for field cultivation
- The orange fruits with green speckles have a diameter of approx. 25 cm

421305 **Penelopa** SEED

ROUGE VIF D'ETAMPES (ROTER ZENTNER) (C. MAXIMA)

- Large, orange-red, flat, round fruits with wide ribs
- Golden yellow, edible flesh
- Beautiful, ornamental pumpkin for Thanksgiving and autumn decoration

421360 **Rouge vif d'Etampes (Roter Zentner)** DE-ÖKO-013|SEED

WHITE HEAVEN F1 (C. MAXIMA)

- Flat, round, white fruits with elegant, ribbed skin
- Dark orange, massive flesh
- Can be stored well
- Uniform fruit size of approx. 7 kg

421445 **White Heaven F1** SEED

PEPITA (C. PEPO)

- Flat, round fruits with an orange and green pattern on the white, smooth skin
- Prefers warm locations, pre-cultivation is recommended
- Edible, keeps well, fruit size: approx. 40 cm

421310 **Pepita** SEED

SIAM (C. PEPO)

- Light green, oval fruits with light spots
- Hard-skinned fruits with cream white flesh
- Suitable for making jam
- Fruit size: approx. 30 cm

421380 **Siam** SEED

421305 Penelopa

PINK JUMBO BANANA (C. MAXIMA)

- Oblong, initially green, later on light pink coloured fruit
- Medium-late maturing, edible
- Length: approx. 40-70 cm

421330 **Pink Jumbo Banana** SEED

TONDA PADANA (C. PEPO)

- Fruits with green and yellow stripes and distinct ribs on the skin
- Keeps very well with solid, orange flesh
- Fruit weight: approx. 2-4 kg

421420 **Tonda Padana** SEED

421310 Pepita

PORCELAINE DOLL (C. MAXIMA)

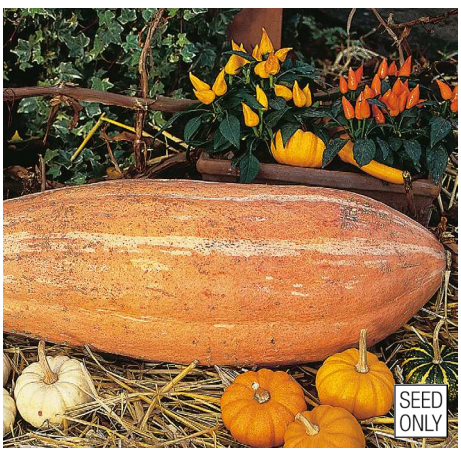
- Flat, round, large fruits with very attractive, light pink, shimmery skin
- Dark orange, edible flesh
- Late ripening, pre-cultivation improves the yield
- Resistant to powdery mildew
- Attractive ornamental pumpkin, fruit weight: approx. 10 kg

421335 **Porcelaine Doll** SEED

WARTY GOBLIN (C. PEPO)

- A large pumpkin for carving and ornamental use with dark green warts on the orange skin
- Moderately climbing habit, medium early ripening
- Good resistance to mildew
- Fruit weight: approx. 4-8 kg

421438 **Warty Goblin** SEED



421330 Pink Jumbo Banana

QUEENSLAND BLUE (C. MAXIMA)

- Greyish blue to dark green, glossy, turban-shaped, grooved fruits
- Tasty flesh
- Keeps well
- Fruit weight: 2-4 kg

421340 **Queensland Blue** SEED

WARZEN ROT (C. MAXIMA)

- Reddish orange, spindle-shaped fruits with numerous warts
- Vigorous habit
- Decorative fruits for an enriched assortment, approx. 4-7 kg

421440 **Warzen Rot** SEED

421335 Porcelaine Doll

421420 Tonda Padana

Mixtures of large-fruited varieties

TURBAN MIX (C. MAXIMA)

- Turban-shaped fruits in orange and green shades with a diameter of up to 25 cm
- Light or two-coloured centre, partly with eye-catching stripes
- An attractive ornamental pumpkin

421460 **Turban Mix** SEED

421340 Queensland Blue

421438 Warty Goblin

GROSSFRÜCHTIGE SONDERFORMEN MIX

- Large fruits in various forms and bright colours
- Also contains multi-coloured and showy fruits
- Attractive, decorative pumpkin mixture with fruit sizes from 20-40 cm

Pumpkins for carving

BABY MOON F1 (C. PEPO)

- Round, white fruits with smooth skin
- Ideal for arrangements and for unusual decorations
- Mildew tolerant, fruit weight approx. 2.5-3 kg

421697 Baby Moon F1 SEED

BABY PAM (C. PEPO)

- Round, bright orange fruits with a diameter of approx. 15 cm
- Firm, smooth skin with slight grooves
- High yield and robust habit
- The fruits weigh approx. 1-2 kg and are ideal for smaller carving pumpkins as well as for eating

421700 Baby Pam SEED

BIG MAX (C. MAXIMA)

- Pumpkin for carving and decorating with large, deep orange fruits
- Edible flesh
- Vigorous habit, medium late ripening
- Fruit weight of up to 50 kg is possible

421710 Big Max SEED

BIG MOOSE (C. MAXIMA)

- A very large pumpkin for carving and displaying
- Orange with light stripes
- Fruit weight: approx. 25-50 kg

421715 Big Moose SEED

BIG ROCK F1 (C. PEPO)

- Heavy carving pumpkin with round to blocky shape, slightly wider than 'Rockstar' F1
- Firm, early colouring, deep orange skin and strong stem
- Medium early ripening, weight: approx. 7 kg up to more than 10 kg

421720 Big Rock F1 SEED

CARGO F1 (C. PEPO)

- Intense, orange-coloured, high-round fruit
- Dark green, thick stem
- Short tendrils and good resistance to powdery mildew
- Fruit weight: 9-12 kg

421735 Cargo F1 SEED

CARRIE F1 (C. PEPO)

- Evenly and beautifully coloured fruits with slight ribbing for carving and decorating
- Round to very round fruits weighing approx. 7-8 kg with good shelf life
- Restrained growth with short tendrils
- High mildew tolerance

421737 Carrie F1 SEED

CHAMPION F1 (C. PEPO)

- Very large, comparatively early maturing pumpkin for carving
- Fruit weight: approx. 15-20 kg
- Well-ribbed, deep orange skin, the stem is thick and medium long

421740 Champion F1 SEED

CHUCKY F1 (C. PEPO)

- Very early maturing, high yielding pumpkin
- Minimal formation of tendrils
- Uniform fruits that weigh approx. 1-1.5 kg
- Ideal for children to carve and paint

421760 Chucky F1 SEED

CHARMANT F1 (C. PEPO)

- Very uniform, flat-topped, round to blocky fruits with orange, slightly grooved skin
- High, reliable yield
- Somewhat later and larger than 'Racer' F1, weight: approx 7-9 kg
- Short shoots, high tolerance to powdery mildew

421750 Charmant F1 SEED

CRONUS F1 (C. PEPO)

- Dark orange pumpkin for carving and cooking with very strong, dark green stems
- Heavy, round to blocky fruits, approx. 15-20 kg
- High tolerance to powdery mildew
- Vigorous, robust habit with high yield
- Medium late harvest

421770 Cronus F1 SEED

FLYNN (C. PEPO)

- Small pumpkin for carving that weighs 3-4 kg with intense orange, ribbed skin
- Approx. 20-25 cm large fruits with thick, dark green stems
- Good resistance to powdery mildew, few tendrils
- The fruits are very durable if they have been harvested when well ripe

421775 Flynn SEED

FORT KNOX F1 (C. PEPO)

- Smaller carved pumpkin with approx. 2.5-3 kg fruit weight.
- High yield of deep orange, beautifully ribbed fruits with a slightly blocky shape.
- Thick, dark green stems
- Resistant to powdery mildew and vigorously climbing

421776 Fort Knox F1 SEED
NEW

HOWDEN (C. PEPO)

- Proven, oval-shaped pumpkin for Halloween
- Medium late ripening, good shelf life
- Fruit weight: approx. 8-12 kg

421780 Howden DE-ÖKO-013|SEED

421697 Baby Moon F1

421700 Baby Pam

421776 Fort Knox F1

421735 Cargo F1

421750 Charmant F1

421780 Howden

HOWDEN BIGGIE (C. PEPO)

- Very vigorous, voluminous pumpkin for cooking and carving in oval to blocky shapes
- The fruit size (15 kg, a good portion more than 20 kg) is larger than that of 'Rockstar' F1
- Medium late ripening, strong, clearly grooved, orange skin

421790 **Howden Biggie** SEED

ORANGE SMOOTHIE F1 (C. PEPO)

- Handball-sized pumpkin for handicrafts with particularly smooth, light orange skin
- Early and high yielding on short shoots, approx. 2-3 kg
- Ideal for painting and carving

421840 **Orange Smoothie F1** SEED

RACER PLUS F1 (C. PEPO)

- Flat, round pumpkin for carving of type 'Racer' with a high tolerance to mildew
- Strong stems and deep orange, slightly ribbed skin
- An efficient variety for professional cultivation, fruit weight: approx. 6-8 kg

421910 **Racer Plus F1** 84 | SEED

KRATOS F1 (C. PEPO)

- Flat, round, orange quality fruit with distinctive, dark stems
- High resistance to mildew, good yield
- Sturdy, but short, trailing habit

421802 **Kratos F1** SEED

MAGICIAN F1 (C. PEPO)

- An attractive, round standard pumpkin for carving
- Dark orange, high-round fruits
- Good and reliable yield, resistant to mildew
- Ripens early, fruit weight: approx. 5-6 kg

421804 **Magician F1** SEED

RENEGADE F1 (C. PEPO)

- Dark orange coloured, massive pumpkin for carving with beautiful ribbing
- Good and reliable yield, high mildew resistance
- Only moderately trailing
- Good skin quality and durability

421915 **Renegade F1** SEED

JACK O LATERN (C. PEPO)

- Pumpkin for carving with mainly round fruits, weight: 4-5 kg

421800 **Jack O Latern** SEED

OWLS EYE F1 (C. PEPO)

- Yellow pumpkin for carving and eating
- Thick, firm stems and a flat fruit base
- High resistance to mildew
- Fruit weight: approx. 4-7 kg

421846 **Owls Eye F1** SEED

NEON F1 (C. PEPO)

- Exceptionally early maturing pumpkin for carving
- Smooth, orange skin and a fruit weight of approx. 3 kg

421820 **Neon F1** SEED

MYSTIC PLUS F1 (C. PEPO)

- Intense orange-coloured pumpkin for decorating and cooking with yellow flesh and a good flavour
- Uniform fruits with a weight of approx. 2.5 kg
- Reliable yield, slightly tendriled

421810 **Mystic Plus F1** SEED

PRIZEWINNER F1 (C. MAXIMA)

- Giant pumpkin for contests and carving
- Orange, grooved skin, fruit weight over 40 kg is possible
- Vigorous habit

421870 **Prizewinner F1** SEED

421790 Howden Biggie

MISCHIEF F1 (C. PEPO)

- Small pumpkin for carving and cooking with a fruit weight of approx. 1-1.5 kg
- High yielding, early variety with tolerance to powdery mildew
- The skin is slightly ribbed, deep orange-coloured and moderately firm
- Ideal for using as a smaller pumpkin for children to carve

421805 **Mischief F1** SEED

POLAR BEAR F1 (C. MAXIMA)

- White, round fruits that weigh 15-25 kg
- Very vigorous habit
- An attractive speciality for carving and painting for Halloween

421860 **Polar Bear F1** SEED

RACER F1 (C. PEPO)

- Flat-spherical to spherical pumpkin with early maturity
- Deep orange coloured fruits with bent, strong stems
- Diameter: approx. 30 cm, weight: approx. 6-8 kg
- Proven standard variety

421900 **Racer F1** DE-ÖKO-013|SEED

421802 Kratos F1

421800 Jack O Latern

421804 Magician F1

421915 Renegade F1

421840 Orange Smoothie F1

421860 Polar Bear F1

421820 Neon F1

ROCKET F1 (C. PEPO)

- Medium early maturing pumpkin with deep orange, slightly grooved skin
- Fruit size: approx. 25-30 cm
- Excellent for carving jack-o'-lanterns or gruesome pumpkin faces at Halloween
- Also ideal as a large-fruited pumpkin for cooking

421940 Rocket F1 SEED

ROCKSTAR F1 (C. PEPO)

- Vertically oval, approx. 50 cm high, uniform, deep orange fruits that weigh 15 kg or more
- Medium early maturing and resistant to adverse weather conditions
- Develops strong shoots

421950 Rockstar F1 SEED

TERRAFIN F1 (C. PEPO)

- Smaller carving pumpkin, ideal for supermarkets
- Lightly ribbed, orange fruits with good stems
- Very uniformly sized fruit of approx. 4 kg

421955 Terrafin F1 SEED

SPIRIT F1 (C. PEPO)

- Pumpkin for carving and cooking that matures early and uniformly for early sales
- Slightly ribbed, bright orange fruits
- Diameter: approx. 25 cm, fruit weight: approx. 4-5 kg

421960 Spirit F1 SEED

SUNLIGHT F1 (C. PEPO)

- Golden yellow, medium-sized pumpkin for carving and cooking
- A unique colour in the assortment
- Robust, dark green stem
- Tolerant to mildew
- Vigorous habit, fruit weight: approx. 2.5 kg

421975 Sunlight F1 SEED

WOLF (C. PEPO)

- Carving pumpkin with a particularly massive, dark green stem
- Slightly flattened, almost round fruits, deep orange, firm skin, slightly ribbed
- Medium late ripening, fruit weight: approx. 8-12 kg

421980 Wolf SEED

SCHNITZKÜRBIS MIX

- A mixture of early and medium early varieties in different shapes and colours
- Ideal for carving, handicrafts and decorating
- The diameter of the fruit reaches approx. 10-50 cm
- All varieties are edible

Yellow / red

415014 Dallas Mix

415080 Santa

MERIDA® XL

- Pot variety with sweet, mild fruits that mature from cream yellow to light orange, then red
- The fruits are upright and therefore visible above the plants
- Compact, firm plant structure with smooth, dark green foliage
- Ideal for selling as a snack pepper

414905 **Merida® XL** 336 | SEED
Yellow / red

414900 Merida®

DALLAS

- A series for pots with upright standing, hot fruits
- Compact and round plant structure
- Has a good presentation of the fruits above the foliage
- Attractive fruit colours and shades

415014 **Mix** 336 | SEED
Mix

414905 Merida® XL

HARLEQUIN

- Ornamental pepper with an attractive play of fruit colours
- Fruit colour changes from cream yellow to purple to red
- The long, round fruits sit freely above the compact, well-branched plants

415025 **Harlequin** 336 | SEED
Cream / orange

415025 Harlequin

SANTA

- Pot variety with upright fruits
- The fruits change from violet to a deep red, an appealing colour complement to the range
- Compact and well-branched growth

415080 **Santa** SEED
Red

ACAPULCO

- Massive, conical fruits with an attractive play of colours as they mature
- Very stable, well-branched plant structure
- Ideally suited for 11-13 cm pots

Container varieties

RAINDROPS

- The numerous fruits hang on the sturdy shoots like little raindrops
- Maturation is from yellow to red and provides an attractive play of colours
- Pleasant spiciness with a slight lemon aroma
- Ideal for larger pots and containers, height: approx. 50 cm

415237 **Raindrops** SEED
Yellow / red

NIGHTFIRE

- The violet black fruits that later turn bright red stand like blazing flames above the dark foliage
- Well-branched, slightly spreading plant structure
- Child-friendly fruits with a mild flavour
- Ideal for containers and high-quality potted plants in late summer, height: approx. 30 cm

415243 **Nightfire** SEED
Dark violet / red

RED TEMPTATION

- Up to 20 shiny, deep red fruits tempt one to snack
- They are sweet with a very mildly spicy taste and approx. 12-14 cm long
- The plants reach a summer height of about 50 cm, ideal for fruit-bearing sales in small containers

415245 **Red Temptation** 180 | SEED
Red

HOT BANANA

- The upright, longish fruits reach a length of 12 cm and are presented freely above the foliage
- Cream yellow fruits mature to a deep red colour
- Moderately hot
- Genetically compact growing

415250 **Hot Banana** SEED
Red / yellow

RED MAMBA

- Medium hot peppers for the production of larger containers in summer
- Fruits change colour from black to red
- Ideal for early sales
- Approx. 70-80 cm height

415291 **Red Mamba** SEED
Red

HOT CHOCOLATE

- The chilli fruits look like delicious chocolate, but have an aromatic spiciness
- Rich yield of approx. 8-10 cm long, drooping fruits, a real feast for the eyes
- Sturdy, low growing plants for pots and containers
- Height at the end customer: approx. 60 cm

415271 **Hot Chocolate** SEED
Chocolate brown

HOT FAJITA

- Spicy pot pepper for early sales
- Red, approx. 10 cm long fruits hang conspicuously on the plants
- Ideal for quality potted plants with a fruit set or smaller containers with unripe fruits

415273 **Hot Fajita** 180 | SEED
Red

HOT BURRITO

- Upright growing, red fruits that are moderately spicy
- Good presentation of the fruits above the dark green foliage
- Firm, stable stems
- Low growing, ideal for sales of fruit-bearing potted plants

415255 **Hot Burrito** 180 | SEED
Red

CUBY

- A real pot pepper with blocky fruits in the midi type
- Rich, early fruit set
- Thick, fleshy fruit walls with a very sweet flavour
- Stable, compact plant structure, ideal for growing in pots and using on balconies and terraces
- Height at the time of sale: approx. 40 cm, in the garden: up to approx. 60 cm

415296 **Red** SEED
Red

415298 **Yellow** SEED

Summer onions, Rijnsburg

HYLANDER F1

- Very resistant against downy mildew
- Medium early, round 'Rijnsburger' type with a very high yield
- Uniform onions with excellent skin durability, can be stored until approx. February

500900 **Hylander F1** DE-ÖKO-013 | SEED

REDLANDER F1

- A red-skinned onion with a high resistance to downy mildew
- Good skin quality and high crop yield
- Suitable for medium length storage

501049 **Redlander F1** DE-ÖKO-013 | SEED

Spanish onions

CABRILLA® MILD

- Very large, mild onion for direct sales
- Interesting for gastronomy, peeling and hobby plants
- Top yields of 1-1.5 kg after pre-cultivation in January

501250 **Cabrilla® Mild (Exhibition)** SEED

Seeded shallot

CONSERVOR F1

- Efficient alternative for cultivating seeded shallots
- Brown-skinned, oval, French shallot with pink flesh
- Stable root system for even sorting

501550 **Conservor F1** DE-ÖKO-013 | SEED

Onion sets

FORUM F1

- The earliest onion for spring plantings, harvest from mid-June
- An attractive, round onion with an excellent quality
- The thin throat permits a short drying process, which allows for early marketing
- 'Quality inside' breeding programme

502000 **Forum F1** BULB

HERCULES F1

- Yellow, round onion with uniform, upright foliage
- Good tolerance against bolting, very well suited for long storage
- 'Quality inside' breeding programme

502050 **Hercules F1** BULB

STURON

- Round, organic onion, also for processing
- Very productive, high dry mass content
- Ideal for long storage with good tolerance to bolting

502100 **Sturon** DE-ÖKO-013 | BULB

RED RAY F1

- Very uniform, high-quality onion set (heat-treated)
- Excellent skin and beautiful, ruby red colour
- 'Quality inside' breeding programme

502250 **Red Ray F1** BULB

Shallots

LONGOR

- Long, medium early French shallot with a red-brown skin colour
- Forms a head of up to 6-8 single bulbs when mature
- Pink-violet on the inside, with a sweet flavour

502650 **Longor** BULB

ALLIUM FISTOLOSUM

BUNCHING ONION — LILIACEAE

1000	Mio/ha			
3,5-4,0	1,7-2,0	III-VII / V	30 x 1,5-2	11-14 / 30

NEGARO

- Very vigorous bunching onion with long, white stalks and no bulb formation
- Green, healthy, upright foliage, very pleasant flavour
- For outdoor cultivation from spring to autumn

502750 **Negaro** SEED

APADANA®

- Particularly uniform leek for harvesting from July until December
- High yielding and long-shafted stalks with dark green foliage
- Very good to work with and easy to clean

503051 Apadana® (Blaugrüner Herbst / Lancelot) — DE-ÖKO-013 | SEED

BLAUGRÜNER WINTER / FORREST

- A winter hardy quality leek for harvesting from December to April
- High yielding, with medium-long shafts and rich, dark green foliage

503351 Blaugrüner Winter / Forrest — SEED

F1 hybrids

RALLY F1

- A productive summer leek for harvesting from the beginning of June to the end of August
- Medium length/long shaft length and easy to clean
- Robust against leaf breakage and thrips

503530 Rally F1 — DE-ÖKO-013 | SEED

JUMPER F1

- Early summer leek that is resistant to bolting, for harvesting from June until the end of September
- Medium long shafts with short, white/green transition, very upright foliage and high yield potential
- Easy to clean, comparatively low susceptibility to thrips

503600 Jumper F1 — DE-ÖKO-013 | SEED

WALKER F1

- A uniform hybrid of type 'Bulgarische Riesen' with long shafts
- Very suitable as an industrial or pre-pack leek

503610 Walker F1 — SEED

ABENI F1

- Standard for earliness and quality with regard to the harvest from May until June
- Exceptionally good self-coverage in terms of earliness
- Healthy, upright foliage
- Very uniform, good flower quality

506000 Abeni F1 SEED

VIENCO® FLOWER

- Medium early quality cauliflower for harvesting in the summer and autumn; developmental period: approx. 75 days
- The white flowers cover well and have a very good quality and very reliable formation
- 33,000 - 40,000 plants / ha

506200 Vienco® Flower F1 (Lecanu) SEED

FREEDOM F1

- A reliable, quality variety for the summer cauliflower segment
- Excellent vernalisation behaviour even under extreme conditions
- Concentrated ripening with few harvests
- Productive variety with upright foliage

506350 Freedom F1 SEED

CLAPTON F1

- Clubroot resistant (HR), uniform cauliflower for the highest demands, developmental period: approx. 85 days
- The heavy, white heads are particularly resistant to hairiness and double heads
- Robust, moderate growing plants with good self-coverage
- 30,000 - 35,000 plants / ha

506450 Clapton F1 SEED

Growing guides
at pro.volmary.com

Cauliflower - special types

DEPURPLE F1

- Purple successor variety to "Graffiti"
- For the summer–autumn period

506799 Depurple F1 SEED

JAFFA F1

- Orange-coloured cauliflower for professional cultivation
- With a comparatively high uniformity and harvesting rate
- Convincing due to the intense colouration of the flowers and the strongly upright foliage
- Restrictions regarding the quality must be expected in midsummer

506861 Jaffa F1 SEED

VERONICA F1

- Reliable, 'Romanesco' type cauliflower with fresh green, pointed inflorescences
- Stable and ideal for cultivation in late summer and autumn
- Robust against powdery mildew
- 25,000 - 30,000 plants / ha

Pointed cabbage

VIENCO® POINTY

- Healthy cabbage with attractive, semi-slender heads
- Long growing season, ideal for organic farming
- Well suited for storage, 50,000 - 70,000 plants / ha

507250 **Vienco® Pointy F1 (Caraflex)** DE-ÖKO-013 | SEED

CARAMBA F1

- Productive, well-filled pointed cabbage for summer and autumn harvests
- Quite sturdy variety, strong, dark green outer leaves
- Cold storage is possible for a short time, 50,000 - 70,000 plants / ha

507200 **Caramba F1** SEED

Fresh market and storage varieties

VIENCO® WHITE

- Fresh market white cabbage for an early summer harvest
- Outer leaves are dark green, compact and upright
- Round, 1-2 kg heavy heads with superb inner quality
- Good field durability and a comparatively high sturdiness
- 45,000 - 65,000 plants / ha

507400 **Vienco® White F1 (Farao)** DE-ÖKO-013 | SEED

AMAZON F1

- Quality white cabbage for compact and firm products for fresh markets, 1-3 kg
- Harvest from mid-July to the end of October
- Excellent inner structure for early products
- Long harvest period, sturdy, 40,000 - 55,000 plants / ha

507550 **Amazon F1** DE-ÖKO-013 | SEED

KILASTOR F1

- Clubroot-resistant, large-headed storage cabbage for the highest demands
- Very healthy plants with dark green heads that weigh 2-3.5 kg
- Good for storage, 30,000 - 40,000 plants / ha

507650 **Kilastor F1** SEED

LENNOX F1

- Standard variety with a high cultivation reliability and peak yields for long-term storage
- Heads weigh from 2 to over 4 kg, they are dark green and slightly oval
- With a wide planting distance, even heavy heads can be provided for the latest industrial purposes
- 30,000 - 38,000 plants / ha

507750 **Lennox F1** DE-ÖKO-013 | SEED

BRASSICA OLERACEA VAR. CAPITATA F. RUBRA

RED CABBAGE — BRASSICACEAE

1000	1000		°C	
4,0-6,0	1300	I-VI	15-20	4-7

Form of cultivation				
Fresh vegetables	50 x 60	-	-	10-20
Potted vegetables	-	-	-	-

Fresh market, storage and industrial varieties

VIENCO® RED

- Early ripening, round red cabbage for harvesting in June/July
- Very uniform, well-coloured variety with low susceptibility to inner leaf necrosis
- 40,000-50,000 plants / ha

508349 **Vienco® Red F1 (Omero)** SEED

KLIMARO F1

- Large cabbage for fresh markets and the industry, 2.5-4.5 kg
- Slightly high-round head shape and a beautiful inner structure
- Suitable for long storage, 30,000 - 40,000 plants / ha

508851 **Klimaro F1** DE-ÖKO-013 | SEED

BRASSICA OLERACEA VAR. GEMMIFERA

BRUSSELS SPROUT — BRASSICACEAE

Potted vegetables	-	-	-	-

MAXIMUS F1

- Well-known, early brussels sprout variety for harvesting in September to October
- Provides a high yield of smooth, uniform buds
- Very good resistance to bolting, various planting dates are possible

509000 **Maximus F1** SEED

VIENCO® BALL

- Early variety with good lap tolerance
- Produces a high percentage of B-florets
- Very good shelf life after harvest

509155 **Vienco® Ball F1 (Octia)** SEED

509000 Maximus F1

509610 Kondor F1

510049 Konstance F1

NAUTIC F1

- Medium early, very high yielding brussels sprout for harvesting in October and November
- Forms fine, round buds with thin stem formation
- Firm and robust against fungal diseases

509150 **Nautic F1** DE-ÖKO-013 | SEED

CRYPTUS F1

- Clubroot-resistant, medium late brussels sprout for harvesting from November to December
- The buds are dark green, very smooth and have an excellent quality

509201 **Cryptus F1** SEED

BRASSICA OLERACEA VAR. GONGYLODES

KOHLRABI BRASSICACEAE

1000	1000		°C	
3,0-5,0	1300	I-VII	18-22	4-7

Form of cultivation				
Fresh vegetables	30 x 30	-	-	6-10
Potted vegetables	-	-	-	-

White stems

CINDY F1

- Very early variety for the earliest cultivation in the greenhouse and for the first plantings in the field under fleece
- Robust, with white bulbs that are clean on the bottom side

509450 **Cindy F1** SEED

MALIBU® WHITE

- Outdoor variety that is particularly good for early cultivation due to its resistance to frost
- Also suitable for unheated greenhouse cultivation
- The stems are flat-round and have medium strong foliage

509750 **Malibu® White F1 (Konmar)** SEED

KORIST F1

- Standard variety for tunnel and outdoor cultivation throughout the entire season
- Round to flat round stems, strong, upright, dark green foliage
- Sturdy, with good resistance to bolting and only becomes woody slowly
- Good quality harvesting over a longer period

509500 **Korist F1** DE-ÖKO-013 | SEED

KONAN F1

- Fast growing main variety for outdoor cultivation, good foliage development
- The sturdy hypocotyl and the position of the leaf stalk close to the stem make a fast harvest possible
- Little leaf breakage and easy packing, very good uniformity for a one-time harvest

509600 **Konan F1** DE-ÖKO-013 | SEED

KONDOR F1

- Healthy and burst-resistant variety for year-round cultivation.
- Long, tautly upright and dark-green foliage even under drought stress
- Easy to harvest due to high stand

509610 **Kondor F1** SEED
NEW

White stems, industrial varieties

KOSSAK F1

- Late, very robust, white hybrid variety for industrial cultivation
- Very productive and sturdy, round, tender flesh and many leaves
- Can be harvested over a long period
- Weight: up to 3 kg/stem, planting distance: 50 x 70 cm

509850 **Kossak F1** DE-ÖKO-013 | SEED

Blue stems

KONSTANCE F1

- Violet, flat-round and burst-proof outdoor kohlrabi for summer and autumn
- Interesting as a colour component next to green kohlrabi
- Upright growth, uniform crop, high harvest rate

510049 **Konstance F1** SEED

MALIBU® BLUE

- Medium late greenhouse and outdoor variety
- Recommended for early outdoor sets due to its low sensitivity to cold and good resistance to bolting
- The stems have a good blue colour and are flat-round/round, the foliage is particularly strong and stable

510100 **Malibu® Blue (Blaro)** DE-ÖKO-013 | SEED

BRASSICA OLERACEA VAR. ITALICA

Potted vegetables	-	-	-	-

WINNETOU F1

- Very productive 'Westländer Winter' type kale
- Large, dark green leaves, finely curled, easy to strip
- Good winter hardiness for harvesting up until January

511300 Winnetou F1 SEED

VIENCO® LEAFY

- A very frost hardy, productive variety for autumn and winter cultivation
- Semi-high, finely curled, high yielding, easy to tear
- Good resistance to yellowing and unfavourable weather conditions

511350 Vienco® Leafy F1 (Reflex) SEED

WINTERBOR F1

- An extremely frost hardy overwintering variety for harvesting until the end of March
- Semi-high plants with dark green, finely curled leaves
- Very good field durability

511450 Winterbor F1 SEED

REDBOR F1

- Red-leaved, hardy curly kale, very delicious
- A real eye-catcher for autumn decoration for harvest festivals and Halloween

511500 Redbor F1 DE-ÖKO-013 | SEED

513312 Torelus® Red F1 (Ombrone)

513699 Torelus® Yellow F1 (Valdor)

514100 Beluga® Green F1 (E 42.0088)

514150 Beluga® Light Green F1 (Monte)

514210 Beluga® White F1 (Belladonna)

BELUGA® PURPLE

- A dark purple bell pepper, ripens to dark red
- Fruit weight: 170-190 g, vigorous plant

513945 **Beluga® Purple F1 (WLS 9729)** 180 | SEED

513948 **Lilo F1** DE-ÖKO-013 | SEED
HR Tm: 0-2

BELUGA® GREEN

- Green blocky pepper with an attractive, special colour, fruit weight: 190 g
- Very sweet and aromatic as it ripens, however it stays green

514100 **Beluga® Green F1 (E 42.0088)** 180 | SEED
HR Tm: 0-2

BELUGA® LIGHT GREEN

- Very productive with blocky, light green fruits (200 g) that mature to yellow
- This type of pepper, popular in Austria, is robust and gets by with little heat

514150 **Beluga® Light Green F1 (Monte)** 180 | SEED
HR Tm: 0-2

BELUGA® WHITE

- Very high-yielding, early bell pepper, 160-170 g, with bright white fruits
- The unripe, white fruits that taste good and fresh are ideal for harvesting
- Matures to a light yellow colour with a sweeter, more tender falvour
- The variety Belladonna has the following resistances:

514210 **Beluga® White F1 (Belladonna)** 180 | SEED
HR Tm: 0-2

514205 **Waldo F1** DE-ÖKO-013 | SEED
HR Tm: 0

TORELUS® RED

- Italian jumbo pepper of type 'Lamuyo'
- Matures comparatively early from green to red, up to 400 g, very aromatic

513312 **Torelus® Red F1 (Ombrone)** v | 90 | SEED

TORELUS® YELLOW

- Green to yellow ripening, a long, blocky jumbo pepper of type 'Lamuyo'
- The variety Valdor has the following resistances:
  HR Tm: 0

513699 **Torelus® Yellow F1 (Valdor)** v | 90 | SEED

NEUSIEDLER IDEAL

- A well-tried bell pepper variety
- Matures from green to red

513400 **Neusiedler Ideal** 336 | SEED

PUSZTAGOLD

- Medium early, high yielding pepper, open-pollinated
- Light yellow, blocky, blunt pepper that ripens to orange-red

513800 **Pusztagold** 336 | SEED

Current availabilities
at pro.volmary.com

514300 Almira® Midi Red F1 (WLS 9420)

514350 Almira® Midi Yellow F1 (WLS 9423)

514400 Almira® Midi Orange F1 (WLS 9425)

Midi blocky peppers

Volmary brand series

ALMIRA® MIDI RED

- Beautiful, small blocky pepper (60 g), matures to bright red
- The compact habit is also ideal for producing fruit-bearing container plants

514300 **Almira® Midi Red F1 (WLS 9420)** 84 | 180 | SEED

ALMIRA® MIDI YELLOW

- Bright yellow, small blocky pepper (60 g) from the 'Almira® Midi' series
- Fits well to the other colours with regard to aroma, fruit quality and habit

514350 **Almira® Midi Yellow F1 (WLS 9423)** 180 | SEED

ALMIRA® MIDI ORANGE

- Blocky pepper (60 g) that matures to orange with an excellent flavour
- Impressive like other varieties from the 'Almira® Midi' series due to its overly rich and early yield
- Very much recommended for the production of fruit-bearing plants for hobby gardeners

514400 **Almira® Midi Orange F1 (WLS 9425)** 180 | SEED

514500 Pritavit F1

Tomato peppers

PRITAVIT F1

- Hungarian tomato pepper with a mild, fruity flavour and high yields
- Bright red, thick-walled fruits with a short and wide shape like a tomato

HR Tm: 0

514500 **Pritavit F1** 84 | 180 | SEED

Jumbo snack peppers

Volmary brand series

MANATI® RED

- A red, sweet pointed pepper with a fruity flavour
- Compact growing, comparatively early variety with fast colouring
- Beautiful, straight fruits with a length of 18-22 cm

514515 **Manati® Red F1 (WLS 1440)** 84 | 180 | SEED

514520 **Xaro** DE-ÖKO-013 | 180 | SEED

MANATI® YELLOW

- A wonderfully sweet pointed pepper with light yellow fruit
- Forms compact, strong bushes, fruit length: 18-22 cm

514525 **Manati® Yellow F1 (WLS 1443)** 84 | 180 | SEED

514530 **Zazu** DE-ÖKO-013 | 180 | SEED
HR Tm: 0-2

Habanero (Mexican chilli)

Volmary brand series

CALITA® RED

- Bright red, thin-walled chilli pepper, 20 g
- Habaneros are one of the hottest chillis in the world
- They are impressive due to their aromatic flavour that is similar to apricots
- Typical for Mexican cuisine

516700 **Calita® Red (WLS 9610)** 84 | 180 | SEED

CALITA® ORANGE

- Bright orange ripening, fiery hot habanero chilli, 15 g

516800 **Calita® Orange (WLS 9618)** 180 | SEED

CALITA® BROWN

- Glossy brown ripening habanero, 20 g, very hot

516900 **Calita® Brown (WLS 9617)** SEED

Scotch Bonnet (Caribbean chilli)

ANIMO® RED

- 'Scotch Bonnet' come from the Caribbean and are one of the hottest peppers in the world
- Characteristic, mushroom-shaped, very fruitful peppers that mature to red, approx. 20 g, 4 x 4 cm
- Sowings and plants require warmth

516960 **Animo® Red (WLS 9620)** 84 | 180 | SEED

Dorset Naga (Indian chilli)

CRESTO® RED

- 'Dorset Naga' chillis are described as being the hottest peppers in the world
- From the Indian subcontinent, brought to Europe from the English
- Small, pointed fruits that mature from green to orange-red, approx. 3 cm, 10 g

516980 **Cresto® Red (WLS 9690)** 84 | 180 | SEED

516700 Calita® Red (WLS 9610)

516800 Calita® Orange (WLS 9618)

Radicchio

XAGROS® RED

- Uniform variety for summer and autumn cultivation, harvest from June to September
- Forms even, dark red, firm heads with green outer leaves
- Reliable cultivation with a good harvest rate

517750 **Xagros® Red (Indigo)** SEED

Chicory

XAGROS® SUGAR

- Chicory for harvesting in the summer and autumn
- Well closed, cylindrical, long heads (approx. 40 to 45 cm)
- Medium early type with an appealing, fresh green colour

517999 **Xagros® Sugar (Perseus)** SEED

URANUS

- Dark green, cylindrical chicory for autumn cultivation
- Long, strikingly large heads (approx. 45-50 cm), very high yielding
- Tolerates light frost and can be stored until December/January

518050 **Uranus** DE-ÖKO-013 | SEED

CITRULLUS LANATUS

WATERMELON — CUCURBITACEAE

Fresh vegetables	150 x 80-100	-	-	14-17
Potted vegetables	-	12-13	18-20	6-8

FIRE BALL F1

- High yield and uniform fruit quality, 6 - 9 kg
- Convincing inner quality with very intense pulp colour
- Very sweet taste and high sugar content

518210 **Fire Ball F1** v | 84 | SEED

Mini watermelon

MINI LOVE F1

- Very early, mini, 'Crimson Sweet' type watermelon for balconies
- Fruit weight: 3-5 kg, 3-4 fruits per plant
- Sweet, red flesh, very crisp
- Compact habit, ideal for grafting

518360 **Mini Love F1** v | 84 | SEED

SUNLOVE F1

- Mini (balcony) watermelon of the "Jubilee" variety with yellow flesh, 2–3 kg.
- Yellow, attractive flesh, low in seeds, excellent flavour
- Compact growth, ideal for grafting

518370 **Sunlove F1** v | 84 | SEED

Garden cucumbers

GEORGIA F1

- Medium to strong vigour, well suited for summer and autumn cultures.
- Reliable variety, ensuring production until the end of the harvest season.
- Low maintenance variety characterised by uniform sprouting of side shoots.
- Good fruit quality and uniformity throughout the season.
- Extensive resistance: high resistance to powdery mildew and intermediate resistance to CGMMV.

HR CVYV/Ccu/Px; IR CGMMV/CMV/Cca

518698 Georgia F1 SEED
NEW

DAVIDA F1

- A generative, open variety with a very high yield potential
- Virus resistance and high mildew resistance for plantings from March to August
- Very good fruit quality, gets into the yield phase quickly

HR CVYV/Cca/Ccu/Px; IR CGMMV/CMV

518699 Davida F1 SEED

518670 Carioca F1

518698 Georgia F1

518699 Davida F1

518800 Shakira F1

SHAKIRA F1

- Very productive, cold-tolerant with a high resistance to powdery mildew
- Generative, open plants with good balance, ideal for cultivating in soil in the summer and autumn
- Very uniform fruits at an optimal length on the stem and the shoots

HR Px

518800 Shakira F1 SEED

518940 Eden F1 (BOL-K-5105)

EDEN F1 (BOL-K-5105)

- Spring, summer and autumn varieties for greenhouse production.
- Open plant with dark coloured leaves, vegetative and vigorous
- Shiny dark green, strongly ribbed fruits with a medium neck
- Fruit weight 300 to 350 g, fruit length 33 to 36 cm
- Intermediate resistance to powdery and downy mildew

HR Ccu / CVYV; IR Px / Pcu

518940 Eden F1 (BOL-K-5105) DE-ÖKO-013 | v | 84 | SEED

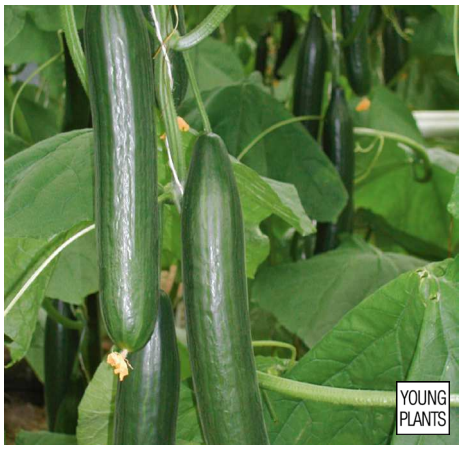
518900 Cyrano® F1 (Dominica)

CYRANO®

- A vigorous cucumber variety that is easy to cultivate, very resistant to mildew
- Uniform, dark green, glossy fruits that have the best shelf life
- Ideal for soil cultivation, very reliable, guarantees the highest yields
- The variety Dominica has the following resistances:

HR PM

518900 Cyrano® F1 (Dominica) v | 84 | SEED



519050 Kiruna® F1 (Fitness)

KIRUNA®

- Robust, mildew-resistant, quality variety
- Long, slender fruits and a high yield potential
- Also ideal for cold cultivation in soil
- The variety Fitness has the following resistances:

IR PM/CMV

519050 Kiruna® F1 (Fitness) v | 84 | SEED

LOUSTIK F1

- Highly productive variety with intermediate resistance to powdery mildew and cucumber mosaic virus
- For heated substrate and soil cultivation in the spring and for the second set in the summer
- A vigorous variety with very early, shiny, dark green, slightly grooved, straight fruits that weigh 425-450 g and have an ideal length
- The high yield potential enables an optimum ratio between the leaf mass and the development of the fruits

HR Ccu; IR CMV/Px

519100 Loustik F1 SEED

VIGOREX F1

- Robust snake cucumber for cold and heated cultivation in the ground
- Vigorous growth, slightly grooved fruits approx. 35 cm long

HR Ccu/Cca; IR /Px

519110 Vigorex F1 v | 84 | SEED

Japanese cucumber

BURPLESS TASTY GREEN F1

- Japanese garden cucumber, characteristically structured, crisp with tender flesh
- Dark green fruits, ideal for harvesting at a length of 20-24 cm
- Forms occasional male flowers under stress, can become bitter

IR Px/Pcu

519440 Burpless Tasty Green F1 SEED

519110 Vigorex F1

Midi garden cucumber

MELVA®

- Particularly tasty gourmet cucumber of type 'Midi'
- Dark green fruits, 23-25 cm, ideal length for heart-shaped cucumbers

HR PM

519500 Melva® F1 (Midios) v | 84 | SEED

519780 Prado F1

519850 Minero® F1 (Mini Stars)

Mini garden cucumbers

GAMBIT®

- Mini garden cucumber that is resistant to mildew, has a high yield potential, 15-17 cm
- Smooth, dark green fruits that are optimally harvested when they are 3 cm thick
- Early, long harvest, very robust
- Also ideal for outdoor cultivation in mild climates
- The variety Printo has the following resistances:

HR PM; IR CMV/CVYV

519600 Gambit® F1 (Printo) v | 84 | SEED

Mini snack cucumber

MINERO®

- Mini snack cucumber with smooth, 8-10 cm long, very crisp fruits
- 3-5 cucumbers per leaf axil, short internode spacing

HR Px

519850 Minero® F1 (Mini Stars) v | 84 | SEED

519862 Citaro® F1 (Amadora)

PRADO F1

- Robust, aromatic mini garden cucumber, smooth, 16-18 cm, ideal for cold soil cultivation
- Very early, uniform fruit set even under unfavourable conditions
- Open, generative plants with average growth

HR Ccu; IR Cca/Px/Pcu/CMV/CVYV

519780 Prado F1 v | 84 | SEED

CITARO®

- High-yield mini-snack cucumber with good heat tolerance
- Smooth, aromatic, crunchy fruits 10-12 cm in length
- The Amadora variety has the following resistances:

HR Ccu/CVYV/ PRSV/ Px/ WMV / ZYMV; IR CMV

519862 Citaro® F1 (Amadora) v | 84 | SEED

KAIKURA F1 (BOL-K-5404)

- Mini snack cucumber for spring, summer and autumn production
- Very open plant with small leaves, easy to care for, high resistance to powdery mildew
- Short internodes with 3–5 fruits per node. Dark green fruits, crunchy and sweet
- Fruits weigh 30–35 grams, fruit length is 5–8 centimetres

HR Ccu; IR Px

519870 **Kaikura F1 (BOL-K-5404)** DE-ÖKO-013 | v | 84 | SEED

Gherkin, parthenocarpic

CONITO®

- Parthenocarpe, smooth variety with very evenly dark green colored fruits
- Good regeneration, resistant to powdery mildew and downy mildew
- The alpaca variety has the following resistances:

HR Ccu/Px; IR CMV

519999 **Conito® F1 (Corentine)** v | 84 | SEED

Gherkin, pollination required

CHARLOTTE (MIX) F1

- Very early maturing, predominately female flowering variety for outdoor cultivation
- Very high yielding, oftentimes 3-4 fruits per internode
- Comparatively long, thin fruits, length/thickness ratio: 3.5:1, bitter-free
- Tolerant to powdery and downy mildew and resistant to cucumber mosaic virus and cucumber scab

520100 **Charlotte (Mix) F1** SEED

Garden cucumbers, parthenocarpic

PAGIRA®

- Early, vigorous, parthenocarpic cucumber
- High resistances, e.g. to powdery mildew
- Dark green, cylindrical, slightly white, spiked fruits
- Bitter-free and very uniform in shape and size

HR Ccu/Px, IR CMV/Cca

520300 **Pagira® F1 (Kenia)** 84 | SEED

SUMUN F1

- Parthenocarpic cucumber ("Nostrano"), approx. 20–25 cm
- High yield potential and high resistance to powdery mildew
- Moderate side shoot formation and good setting potential even under cool conditions

HR CVYV/Px/Ccu, IR CMV

520349 **Sumun F1** SEED

LA DIVA

- A smooth cucumber that has approx. 20 cm long fruits
- Very tender skin and an excellent flavour
- Resistant to powdery mildew and cucumber scab

520550 **La Diva** SEED

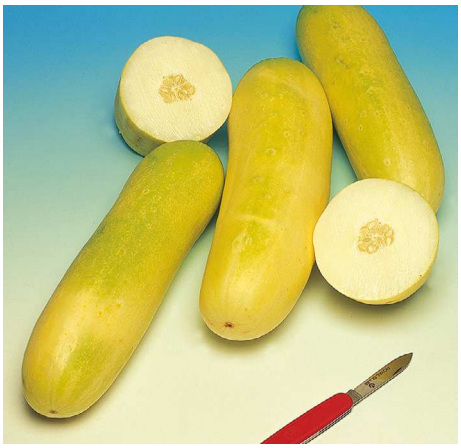
Garden cucumbers, pollination required

DARINA F1

- Very vigorous, predominantly female flowering cucumber, 20-23 cm
- Very well suited for early cultivation in plastic tunnels as well as outdoors
- Length/thickness ratio: 4.2:1, dark green, white-spiked fruits

IR Px/CMV

520600 **Darina F1** SEED



520850 Travito F1

521000 Rootpower F1

*) Large buds

IMPERIAL STAR

- Very early variety with rich harvest and quality buds already in the first year
- Vigorous, healthy growth, green, very large buds

522400 **Imperial Star** 180 | SEED

DAUCUS CAROTA SSP. SATIVUS

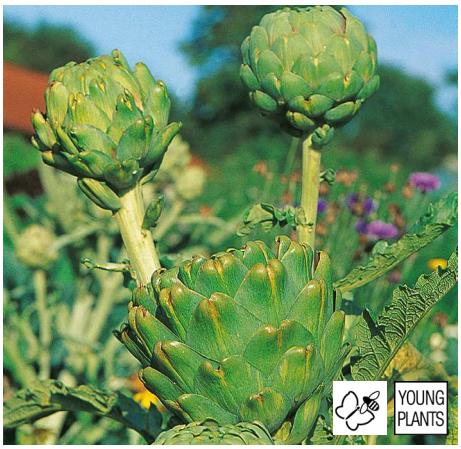
CARROT — APIACEAE

1000	Mio/ha			
1,0-1,8	1,0-2,5	II-VI	30-40 x 2-4	12-28

MOKUM F1

- The combination of earliness, high yield and quality with good flavour makes this variety a standard for very early cultivation
- 'Amsterdam' type, 15-17 cm long, cylindrical and attractively coloured
- Also suitable for early cultivation under glass and plastic

522700 **Mokum F1** SEED



522400 Imperial Star

522750 Nerja F1

523350 Nipomo F1

523750 Purple Sun F1

NERJA F1

- Very early 'Amsterdam' type bunched carrot that is 2-3 days after 'Mokum'
- Long, cylindrical, pointed-top carrots with an intense orange colour
- Excellent, sweet flavour
- Dark green, upright and firm foliage allows easy bundling

522750 **Nerja F1** SEED

NAPOLI F1

- Early 'Nantaise' type carrot for producing bunched and topped carrots
- Successive sets can be sown up to the beginning of July
- 19-20 cm long roots are extremely resistant to breaking, well coloured and smooth
- Strong and robust foliage

522800 **Napoli F1** DE-ÖKO-013 | SEED

NOMINATOR F1

- Fast growing carrot that gets blunt early, similar to 'Napoli'
- High product uniformity, low tendency towards greening

522840 **Nominator F1** SEED

NIPOMO F1

- Interesting quality variety for storage, develops a few days earlier than 'Nerac'
- 'Nanataise' type, cylindrical with attractive, intense colouring
- Stable and upright foliage

523350 **Nipomo F1** DE-ÖKO-013 | SEED

NERAC F1

- Robust, medium late maturing carrot for cultivating in the summer and autumn
- Well-rounded, cylindrical and very smooth carrots
- The foliage is strong and upright
- A topped carrot for long storage and overwintering covered with straw

523400 **Nerac F1** SEED

KAMARAN F1

- Late 'Berlikum/Flakkee' type for industrial cultivation
- 25-28 cm long, intense dark orange-coloured, uniform carrots

523550 **Kamaran F1** SEED

Carrot specialities

PURPLE SUN F1

- Intense violet carrot speciality with uniform, medium violet colouration
- Slightly conical carrots with good lengths
- Comparatively good foliage characteristics, little susceptibility to bolting

523750 **Purple Sun F1** SEED

WHITE SATIN F1

- This white carrot brings additional colour to the range
- Ideal tasty carrot for fresh consumption

523850 **White Satin F1** SEED

RAINBOW F1

- Colourful variety with yellow, white and orange-red roots
- Also appealing as bunched carrots

523950 **Rainbow F1** SEED

MELLO YELLO F1

- Golden yellow root, broadens the colour spectrum for carrots
- Aromatic carrots
- Stable foliage for an easy harvest

524000 **Mello Yello F1** SEED

523850 White Satin F1

523950 Rainbow F1

BUSH BEAN — FABACEAE

1000	Mio/ha			
180-440	0,3-0,35	V-VII	50-60 x 8	10-11

Green-podded varieties

DIVARA

- Very high yielding, green bush bean, crisp and very aromatic
- Straight, succulent, well-rounded, 17-19 cm long, 8-9 mm thick pods
- Resistant to bean anthracnose, bean mosaic virus and halo blight
- TKW = approx. 290 g (white-seeded)

540000 Divara DE-ÖKO-013 | SEED

PRIMAVERA

- Very productive, crisp filet bush bean
- Intense green, glossy, round pods, 13-14 cm long, 8-9 mm thick
- The plants grow upright and have a stable habit, the pods hang freely
- Resistant to anthracnose, halo blight and bean mosaic virus
- TKW = approx. 220 g (white-seeded)

540200 Primavera DE-ÖKO-013 | SEED

SANSOUCY

- Particularly high-yielding variety in the popular 'chicken type'
- Ideal for hand-harvesting; the pods hang freely over the foliage
- Nice, dark green 14-cm-long straight pods
- TKG = approx. 400 g (white grain)

HR BCMV/CI/Psp

540260 Sansoucy SEED

Flat-podded varieties

POSEIDON

- Early, very productive new breeding, flat-podded 'Roma' type, aromatic
- Long, very uniform, straight pods (13-15 cm), particularly wide (18-20 mm)
- Upright, stable bushes with concentrated pod production
- TKW = approx. 460 g (white-seeded)

HR Psp/BCMV/CI

540300 Poseidon SEED

Yellow-podded varieties

VOLETTA

- A very productive filet wax bean with fine, aromatic pods
- Straight, fully round, 7-8 mm thick and 16-17 cm long pods
- Intense golden yellow, stays crisp long after cooking
- Resistant to anthracnose, bean mosaic virus and halo blight
- TKW = approx. 190 g (white-seeded)

540500 Voletta DE-ÖKO-013 | SEED

NEW

PISUM SATIVUM

PEA FABACEAE

1000	Mio/ha			
200-300	0,4-0,7	III-VI	30-40 x 3	10-13

Wrinkled peas

GRANDERA

- Large-podded, very productive variety for gourmets
- 11-12 cm long, with 8-10 dark green, large peas, pointed pods
- The leaves are entwined (semi-leafless), for cultivating without a retaining wire
- Resistant to Fusarium oxysporum
- Height: 70-80 cm, TKW = approx. 290 g

543350 Grandera SEED

543800 Neptun F1

MAXIGOLT

- Fresh market variety with large, blunt pods and a very good flavour
- Medium late, resistant to Fusarium oxysporum
- Height: 90-100 cm, TKW = approx. 300 g

543400 Maxigolt SEED

Sugar peas

ZUCCOLA

- Early sugar pea of the 'snap pea' type
- Sugary sweet, thick, fleshy pods with 8-9 peas, length: 8-9 cm
- No endocarp, the pods can be eaten whole
- Resistant to powdery mildew and Fusarium oxysporum
- Height: 70-75 cm, TKW = approx. 220 g

543650 Zuccola SEED

DELIKATA

- Impressive variety of the 'Kaiserschote' type
- Flat, dark green pods with a length of 10-11 cm, up to 2 cm in width
- Young pods for 'Kaiserschote', later as a sugary sweet garden pea (8-10 peas)
- Resistance to powdery mildew and Fusarium oxysporum
- Height: 75-85 cm, TKW = 280 g

543700 Delikata SEED

MIRADO® ROSE

- Intensely sweet, pink plum cherry tomato, 15-20 g
- Ideal addition to the 'Mirado®' series
- The Rozestar variety has the following resistances:

HR ToMV: 0,1/Ff: A-E/ Fol: 0/For; IR Mi

538430 **Mirado® Rose F1 (Rozestar)** v | 90 | SEED

MIRADO® CHOCO

- Chocolate-coloured, crunchy plum cherry tomato, 15-20 g, strongly aromatic
- Compact, generative plant ideal for large pots on balconies and patios
- The Chocostar variety has the following resistances:

HR ToMV: 0-2/ Fol: 0/Ss; IR Mi

538435 **Mirado® Choco F1 (Chocostar)** v | 90 | SEED

MIRADO® BLACK

- Unusual, black plum cherry tomato with red star at the base of the calyx, fruit weight 20-25 g.
- Black fruits are only ripe when they show through pink, inner colour bright red, very aromatic.
- The Nightshade variety has the following resistances:

HR ToMV/Ff; IR Mi/Fol: 2/On

538438 **Mirado® Black F1 (Nightshade)** SEED
NEW

RESISTANCES FOR VEGETABLES:

HR = High resistance
IR = Intermediate resistance

Capsicum annuum:
Tm = Viruses from the Tobamovirus Group (incl. Tobacco Mosaic Virus, Tomato Mosaic Virus and Pepper Mild Mottle Virus)
TSWV = Tomato Spotted Wilt Virus
PC = Phytophthora capsici
PVY = Potato Virus Y
Ma = Meloidogyne arenaria root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mi = Meloidogyne incognita root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mj = Meloidogyne javanica root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable

Cucumis melo:
PM = Powdery Mildew
Ec = Powdery Mildew (Erysiphe cichoracearum)
Gc = Powdery Mildew (Golovinomyces cichoracearu ex. Erysiphe cichoracearum)
Sf = Powdery Mildew (Sphaerotheca fuliginea)
Px = Powdery Mildew (Podosphaeria xanthii ex. Sphaerotheca fuliginea)
Fom = Fusarium Wilt (Fusarium oxysporum f. sp. melonis)
Ag = Melon Aphid (Aphis gossypii)

Cucumis sativus:
PM = Powdery Mildew
Px = Powdery Mildew (Podosphaeria xanthii ex. Sphaerotheca fuliginea)
CGMMV = Cucumber Green Mottle Mosaic Virus
CMV = Cucumber Mosaic Virus
CVYV = Cucumber Vein Yellowing Virus
ZYMV = Zucchini Yellow Mosaic Virus
PRSV = Papaya Ringspot Virus
WMV = Watermelon Mosaic Virus
Pcu = Downy Mildew (Pseudoperonospora cubensis)
Cca = Target Leaf Spot (Corynespora cassiicola)
Ccu = Scab of Cucurbits (Cladosporium cucumerinum)
Fon = Fusarium Wilt on Watermelons (Fusarium oxysporum f.sp. niveum)
Foc = Fusarium Wilt on Cucumbers (Fusarium oxysporum f.sp. cucumerinum)
Fom = Fusarium Wilt on Melons (Fusarium oxysporum f.sp. melonis)

Curcurbita pepo:
CMV = Cucumber Mosaic Virus
ZYMV = Zucchini Yellow Mosaic Virus
WMV = Watermelon Mosaic Virus
PRSV = Papaya Ringspot Virus (Papaya Ringspot Virus)
Gc = Powdery Mildew (Golovinomycs cichoracearum)
Px = Powdery Mildew (Podosphaera xanthii)

Lactuca sativa:
Bl = Downy Mildew (Bremia lactucae)
Nr = Lettuce Aphid (Nasonovia ribisnigri)
LMV = Lettuce Mosaic Virus
Pb = Lettuce Root Aphid (Pemphigus bursarius)

Phaseolus vulgaris:
BCMV = Bean Common Mosaic Virus
Cl = Anthracnose/Black Spot Disease (Colletotrichum lindemuthianum)
Psp = Halo Blight (Pseudomonas syringae pv. phaseolicola)

Solanum lycopersicum:
ToMV = Tomato Mosaic Virus
TSWV = Tomato Spotted Wilt Virus
ToTV = Tomato Torrado Virus
TYLCV = Tomato Yellow Leaf Curl Virus
Ff/Pf = Leaf Mould Disease (Fulvia fulva, ex Cladosporium fulvum)
Fol = Fusarium Wilt (Fusarium oxysporum f. sp. lycopersici)
For = Fusarium - Crown and Root Rot (Fusarium oxysporum f. sp. radicis lycopersici)
On = Powdery Mildew (Oidium neolycopersici)
Pi = Phytophthora infestans (Late Blight)
Va = Verticillium Wilt (Verticillium albo-atrum)
Vd = Verticillium Wilt (Verticillium dahliae)
V = Verticillium Wilt (Verticillium albo-atrum - Verticillium dahliae race 1)
Ss = Stemphylium solani
Ma = Meloidogyne arenaria root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mi = Meloidogyne incognita root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Mj = Meloidogyne javanica root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
M = Meloidogyne arenaria, Meloidogyne incognita, Meloidogyne javanica root-knot nematodes, for soil temperatures up to 28°C. Above this temperature, the varieties become increasingly vulnerable
Pl = Corky Root Disease (Pyrenochaeta lycopersici)

Spinacia oleracea:
Pfs = Downy Mildew (Peronospora farinosa f.sp. spinaciae)

1. Resistances

1.1 Terminology

There are different degrees of specification for pests or pathogens in their relationship to plants. The determination of this specification usually requires highly sophisticated analysis techniques. The answer to the question whether a plant can be affected by a pest or pathogen perhaps depends on the applied analysis procedure. It is important to emphasise that the specification of pests and pathogen can generally be subject to temporal and regional fluctuations. The specification also depends on ecological factors, and new harmful organisms or new strains of pathogenic agents that are able to withstand the resistances may develop.

1.2 Definitions

Immunity:
Neither subject to attack by a certain pest nor infection by a certain pathogen.

Resistance:
The ability of a plant type to limit the growth and development of a certain pest or pathogen and/or the damage caused in comparison with susceptible plant types under comparable environmental conditions and pest and pathogen pressure. Under high pest and pathogen pressure, resistant varieties may exhibit some disease symptoms or damage.

Two resistance degrees are defined:

High/standard resistance (HR):
Plant types that highly limit the growth and development of a certain pest or pathogen under normal pest or pathogen pressure in comparison with susceptible plant types. These plant types, however, may exhibit some symptoms or damage under high pest and pathogen pressure.

Moderate/intermediate resistance (IR):
Plant types that limit the growth and development of a certain pest or pathogen, but may exhibit more symptoms or damage in comparison with resistant varieties. Moderate/intermediate resistant varieties will still have less serious symptoms or damages that susceptible plant types when grown under comparable environmental conditions and/or pest and pathogen pressure.

Susceptibility:
The susceptibility of a plant type is the inability of it to limit the growth and development of a certain pest or pathogen.

1.3 Variety Resistance Information

The resistances of our breedings are coded if they have not been noted elsewhere.

For varieties with resistances to more than one pathogen, resistance codes are separated by "/". If a resistance code refers to a particular disease strain, there is no protection against another strain of this pathogen. If the resistance indication does not refer to a certain strain of a pathogen but to uncertain, non-specified strains, it cannot be guaranteed that the respective variety could nevertheless be infected by the stated pathogen.

The resistances indicated in the catalogue are based on current knowledge at the time of printing. A breaking of resistances by the respective pest, however, cannot be excluded.

2. Disclaimer

We have produced our new catalogue with great care, however mistakes are not excluded. We cannot assume any liability for the completeness and correctness of the content.

553570 Baristo® (Gemini)

Genovese basil

BARISTO®

- Genovese variety for year-round pot production with moderate resistance to mildew
- Bright green colour, leaves are slightly smaller and flatter than Gemma and Geniale
- Perfect for producing fresh cuts in summer outdoors
- The best choice for organic producers

553570 Baristo® (Gemini) DE-OKO-013 | 84 | 180 | 180 | SEED

GEMMA

- Genovese variety with excellent taste and aroma
- Beautiful dark green, large spoon-shaped leaves, very compact
- Suitable for pot production in spring, summer and autumn.

553580 Gemma SEED

GENIALE

- Especially for summer cultivation, compact plant with large spoon-shaped leaves
- Thrives in warmer conditions, but can also be grown in pots in spring and autumn
- Excellent aroma and flavour – the perfect choice for making pesto

553590 Geniale SEED

GENTILE

- New quality cut basil in the Superbo type with intermediate resistance to downy mildew.
- Dark green Genoveser type leaves, very intense aroma, vigorous, medium compact plant.

553680 Gentile SEED
NEW

553690 Superbo

SUPERBO

- Particularly uniform cut basil in the 'Genovese Classico' type.
- Vigorous plant with medium compact growth habit
- Large deep green leaves, intense flavour in the classic Genovese basil aroma
- Due to fast growth and early market height, it is also interesting for the pot area

553690 Superbo SEED
NEW

Red basil

RED RUBIN

- Medium-compact red basil variety with flat leaves
- Red Ruby grows well in pots and outdoors in summer

554100 Red Rubin SEED

Leaf basil

Volmary brand series

COPA® GREEN

- Green, upright basil, particularly robust.
- Medium-sized, slightly curled leaves, pleasantly strong aroma
- Ideal for the production of sturdy pot basil

General Terms and Conditions of Volmary GmbH

1. General

1.1 The following General Terms and Conditions apply to all sales and licensing procedures that take place within the context of our sales business, insofar as it is not stated otherwise in our offer or in the confirmation of the order.

1.2 Our General Terms and Conditions are exclusively applicable. Any opposing conditions, or any conditions that diverge from the General Terms and Conditions of the ordering party, as well as any side agreements, are only binding if we have expressly agreed to their validity in writing. Our General Terms and Conditions shall also apply if we execute the delivery without reservation, in the knowledge that the Terms and Conditions of the ordering party are contrary to or divergent from our Terms and Conditions.

1.3 The following General Terms and Conditions apply exclusively to companies in the sense of Section 14 of the BGB (German Civil Code).

1.4 Insofar as no divergent provision has been made, the Incoterms 2020 (EXW in accordance with INCOTERMS 2020), including any supplements valid at the time of conclusion of the contract, shall apply in terms of the interpretation of the customary forms of the contract.

2. Offer – Closing of Contracts

2.1 Presentation of our products (seeds, bulbs, seedlings/young plants etc.) in advertising and other materials, including our web pages, do not represent legally binding offers in the sense of Section 145 of the BGB. They are free and non-binding. They are merely to be seen as encouragement to an ordering party to submit orders.

2.2 The binding nature of the order placed by the ordering party, with respect to our company, shall be two weeks from the date of receipt of the order, unless otherwise specified at the time of submission of the order.

2.3 The order shall only be deemed to have been placed upon receipt of our written confirmation. Execution and delivery of the ordered goods or services by us without prior written confirmation shall also be deemed as acceptance of the order.

2.4 If our acceptance – whether in writing or by execution of the order – takes place after expiry of the binding period of two weeks (Clause 2.2), the contract shall nevertheless be deemed to have been concluded, insofar as the ordering party does not react immediately.

2.5 We reserve the right to adjust the varieties, quantities and delivery dates in our order confirmations, according to the actual delivery possibilities. Such changes shall be deemed to have been agreed upon if the ordering party does not object within eight calendar days of receipt of the order confirmation. This shall only apply if the changes made to the order appear acceptable to the ordering party, under consideration of our interests.

3. Delivery

3.1 Unless otherwise agreed in the respective contract, the agreed delivery dates refer to the provision of the goods for handover or dispatch at our production plant in Senden (ex our premises Incoterms 2020).

3.2 Insofar as the delivery by our suppliers is not correct or on time, our obligation to deliver shall be suspended. This shall only apply in the event that we or our supplier are not responsible for the failure to meet the deadline.

3.3 Shortages of raw materials or energy, strikes, lockouts, traffic disruptions, official decrees or other restrictions under public law, operational disruptions, all cases of force majeure and other circumstances, in particular trade restrictions as a result of the Corona pandemic, for which neither we nor our vicarious agents can be held responsible and which could not have been foreseen by us, shall release us from our obligation to deliver and, if applicable, from our licensing obligations, for as long as they persist, insofar as these circumstances affect our ability to deliver.

3.4 In the cases of Sections 3.2 and 3.3, we shall be entitled to withdraw from the contract without any obligation to pay damages if performance becomes impossible or unreasonable for us, or if an end to the impediment to the performance is not foreseeable. This shall only apply if we or our vicarious agent are not responsible for the impediment to the performance and if we have immediately informed the ordering party of the aforementioned impediments to the performance. In the event of withdrawal from the contract, we are obliged to immediately reimburse any payments already made by the ordering party.

4. Duty to examine and to notify of defects

4.1 We are entitled to execute orders in the form of partial deliveries, unless otherwise agreed. The ordering party can only justifiably refuse acceptance of partial deliveries if they are objectively of no interest to them. The ordering party shall declare refusal of acceptance in writing; the lack of objective interest must be justified in writing together with the refusal.

4.2 The ordering party shall inspect and examine the goods immediately upon receipt, insofar as this is feasible in the ordinary course of business. Depending on the scope of the delivery, the inspection/examination shall be carried out by taking a sufficient number of random samples, as required. If the ordering party requests a delivery to a third party, he must ensure that an immediate inspection and examination of the goods takes place.

4.3 The obligation of the ordering party to examine the goods and give notice of defects also extends to phytosanitary properties, i.e. in particular to viruses, pest infestations and diseases. If the ordering party suspects the existence of such phytosanitary issues, they must proceed as described in Section 10.7. Furthermore, in particular – especially with regard to the duty to minimise damage incumbent upon themselves – they shall separate the possibly infested or sub-standard goods from other goods, both those delivered by us and those already present at the ordering party's premises, in order to prevent the spread of the infestation/infection.

4.4 In the event of obvious lack of quality, incorrect deliveries or shortfalls in terms of quantities, the ordering party must notify us immediately, at the latest within 3 calendar days. The notification must be made in writing. Transport staff are not authorised to accept complaints. If the ordering party fails to provide such notification, the goods shall be deemed to have been approved and the ordering party shall not be entitled to claim any rights arising from lack of quality, unless it was not recognisable during the inspection. In all other respects, Sections 377 et sec. of the HGB shall apply.

4.5 The ordering party shall notify us of any quality issue that are not immediately apparent (hidden issues) immediately upon discovery thereof.

4.6 The ordering party is obliged to inspect the goods for transport damage – if necessary by way of appropriate random samples – upon receipt. If any transport damage is detected, the ordering party must immediately prepare a report in which the condition of the goods and the transport damage are recorded. The report must be handed to the transport staff for signature. The ordering party is obliged to report any transport damage to the transport company without delay, together with this report, and to inform us, along with a copy of the report. We shall not be held liable for transport damage – subject to Section 11 – unless the damage was caused intentionally or due to gross negligence, either by us or by one of our vicarious agents.

4.7 The acceptance of a notice of lacking quality on our part does not constitute an acknowledgement of the alleged condition.

5. Prices and Delivery Modalities

5.1 Unless otherwise agreed in the respective contract, all prices are ex our production facility in Senden. All costs relating to the goods, such as duties, insurance, taxes, storage costs, etc., shall be borne by the ordering party once the goods are made available at our production plant in Senden. Shipment shall only take place at the request of the ordering party; in this case, any additional freight/transport costs shall also be borne by the ordering party, and we shall transfer them accordingly.

5.2 The risk of accidental loss of the goods shall be transferred to the ordering party upon handover to the transport company.

5.3 We shall take back sales packaging, within the scope of the statutory obligations. Unless otherwise agreed in the respective contract, such packaging materials must be returned to our production plant in Senden, and this shall be arranged by the ordering party at their own expense.

5.4 Other transport packaging will be charged to the ordering party, unless otherwise agreed. If such materials are returned to us by the ordering party, undamaged, they will be credited accordingly.

5.5 Unless otherwise agreed in the respective contract, the loading of the goods at our production plant in Senden shall be arranged by the ordering party. This also applies in the event that the ordering party commissions the collection of the goods. Insofar as we provide the ordering party or their agents with support during loading, this shall be deemed to be a matter of courtesy on our part. The ordering party or their agents shall be solely responsible for proper loading, and in particular for compliance with the regulations relating to the securing of the load.

5.6 Our prices are based on the listed price at the time at which the order becomes binding, unless otherwise agreed. Insofar as no divergent agreement has been made in the respective contract, the prices are ex our production facility in Senden, excluding packaging and the statutory VAT.

6.0 Conditions of Payment

6.1 Invoiced amounts are due 30 days after the invoice date. Any discounts require an express prior written agreement. Such discounts must be agreed anew for each contract.

6.2 If there is a statutory change in VAT after conclusion of the contract, the value added tax shall be charged at the new rate applicable by law.

6.3 Insofar as partial deliveries are made, in accordance with Section 4.1, or in agreement with the ordering party, we shall be entitled to invoice each partial delivery individually. Invoicing shall be based on the agreed individual prices.

6.4 Payments shall only be submitted to one of our bank accounts, as stated on the invoice.

6.5 Unless otherwise agreed in individual cases, payments made by the ordering party shall always be set off against the oldest outstanding claim. The offsetting shall be carried out in accordance with the statutory regulation of Section 367 of the BGB, i.e. first on the costs, then on any interest and finally on the relevant principal claim. Any other provision of services by the debtor, after the conclusion of the contract, shall be deemed irrelevant.

6.6 Cheques will only be accepted as conditional payment. Payment shall only be deemed to have been made when and insofar as the amount has been irrevocably credited to our account. Any charges incurred by the bank, in particular in the event of dishonoured cheques, shall be borne by the ordering party.

7 Defaults

7.1 The occurrence and consequences of a default shall be governed by the statutory provisions of Sections 286, 287 and 288 of the BGB.

7.2 If the ordering party is in default of payment, we may withdraw from all contracts from the mutual business relationship or only provide further deliveries and services – also for other contracts from our mutual business relationship – dependent on advance payments or securities, at our discretion; we are also entitled to disclose all assignments (Section 9.1) to all customers of the ordering party, and to demand immediate payment to us. This shall not apply if the ordering party is only in arrears with minor amounts and there is no doubt as to their solvency; an arrears in payments shall be deemed to be minor if it amounts to a maximum of 5% of the total order volume from which it originates.

7.3 The ordering party may only offset any counterclaims if these are either recognised by us or have been legally established.

8. Retention of Title

8.1 We retain the title to the goods delivered by us until all claims to which we are entitled from the underlying contract – including any costs, interest and damage caused by delay – have been met in full.

8.2 Our ownership also extends to the goods, plants and products produced by the ordering party through cultivation, processing, blending or mixing of the goods delivered by us, under retention of title. If any of our goods subject to retention of title are processed or inseparably mixed with goods still owned by third parties, we shall acquire co-ownership of the new goods or mixed stock. The extent of the co-ownership results from the ratio of the invoice value of the goods delivered by us under retention of title to the invoice value of the remaining goods.

9. Transfer of Claims

9.1 The ordering party shall be entitled to resell the goods delivered by us within the scope of their proper business transactions. In this case, they hereby assign the claim against their customer arising from the resale to us. The assignment is limited to the amount of our claim arising from the delivery of the resold goods, including any costs, interest and damages caused by delay, insofar as these have already been invoiced to the ordering party and registered. At our request, the ordering party shall disclose all resales of goods not yet paid for, name the recipients in full and provide us with all the required information for the direct enforcement of the claims assigned to us.

9.2 The ordering party is obliged to ensure, by means of suitable agreements with its customers, within the scope of what is legally permissible, that the claims assigned to us are not forfeited by offsetting, but are only fulfilled by payment; to the required extent. They must refer to the assignment for this purpose.

9.3 The ordering party is entitled to collect claims assigned to us from its customers. The ordering party is obliged to immediately forward any such payments received from its customers to us, up to the amount of the claims to which we are entitled. If the ordering party collects claims assigned to us by their customers, without passing them on to us accordingly, we are entitled to disclose the assignment with regard to all claims – also against other customers – and to demand immediate payment to us. Furthermore, we are entitled to revoke the authorisation to collect if the ordering party is in default with the fulfilment of their obligations towards us, in particular regarding payments, or if another circumstances become known, which cast doubt on their creditworthiness. If the authorisation to collect lapses or is revoked by us, the ordering party must inform us immediately, at our request, of the debtors of the assigned claims and provide us with the information and documents required for collection.

9.4 If any third parties, particularly within the scope of compulsory execution or insolvency law measures, want to access the goods that are our property, the ordering party must inform them of our ownership and present the relevant documentation. At the same time, they must inform us immediately. If we incur any costs in defending ourselves against alleged third-party claims to the goods that are our property, the ordering party shall reimburse these cost, insofar as they are not actually reimbursed by third parties; we shall assign any claims against third parties to the ordering party concurrently.

9.5 If the value of the securities granted to us by the ordering party exceeds the sum of our secured claims by more than 20%, we are obliged to release the securities exceeding 20% at the request of the ordering party. We shall select the securities to be released at our reasonable discretion.

10. Guarantee

10.1 Insofar as any goods delivered by us are found to be defective, the cause of which already existed at the time of the transfer of risk, in principle we shall be obliged to fulfil our guarantee obligations, insofar as we are notified of the defect within the limitation period (Section 10.4).

10.2 If the ordering party resells the goods delivered by us and its customer or the last customer in the supply chain is a consumer in the sense of Section 13 of the BGB, the ordering party may submit a claim against us in accordance with the statutory provisions of Sections 478 and 479 of the BGB, by way of so-called supplier recourse. If a justified case of supplier recourse exists, the restrictions on our guarantee obligations as set out in these General Terms and Conditions shall not apply.

10.3 The prerequisite for supplier recourse is that the goods delivered by us are sold to the consumer in an unchanged condition throughout the entire supply chain. Insofar as the goods have been cultivated or otherwise changed, or improperly handled in the meantime, supplier recourse shall not come into consideration. Supplier recourse presupposes that the shortcoming present at the time of handover to the consumer also constitutes a shortcoming in the relationship between us and the ordering party.

10.4 The period of limitation for guarantee claims is one year from the start of the statutory period of limitation. In deviation from this, the statutory periods of limitation shall apply insofar as the ordering party justifiably asserts a claim against us, within the context of the supplier recourse (Sections 10.2 and 10.3).

10.5 If the ordering party breaches their duties of inspection and notification of complaints, in accordance with Section 4, they may lose their rights under guarantee, pursuant to the provisions as set out in Section 4.

10.6 If the ordering party notifies us of any shortcomings, whether in accordance with Section 4 or 4.5, they must give us the opportunity to examine the goods ourselves and/or have them examined by third parties commissioned by us. If the ordering party commissions any third parties, particularly an expert, to inspect the goods or determine any shortcomings, we shall only be obliged to bear the costs incurred if an immediate inspection is objectively necessary and we do not carry out an inspection immediately.

10.7 If the ordering party asserts guarantee claims, we shall initially only be obliged to provide supplementary performance (rectification of the defect or delivery of a defect-free item). If we refuse subsequent fulfilment or if subsequent delivery fails or is unreasonable for the ordering party, the ordering party may reduce the purchase price or withdraw from the contract. Claims for damages on the part of the ordering party are excluded, subject to the provisions in Section 11.2.

10.8 If the ordering party has the right to claim subsequent fulfilment by delivery of goods free of defects, we shall be entitled to adjust the varieties supplied to the actual delivery possibilities, insofar as the deviation is reasonable for the ordering party.

11. Claims for Damages

11.1 Insofar as the ordering party is entitled to claims for damages or reimbursement of expenses due to shortcomings that are not excluded by the above agreements or Section 11.2, they shall be subject to a limitation period of one year.

11.2 Claims for damages or reimbursement of expenses on the part of the ordering party, irrespective of the legal grounds, in particular due to breach of obligations arising from contractual obligations or unlawful acts, shall be excluded, subject to the exceptions stated below:

a) In the event of a slightly negligent breach of cardinal obligations, our liability shall be limited to the damage typically occurring in transactions of this type.
b) Damages resulting from injury to life, body and health caused by a negligent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents.
c) Other damages, based on an intentional or grossly negligent breach of duty on our part or intentional or grossly negligent breaches of duty on the part of our legal representatives or our vicarious agents.

11.3 Furthermore, claims for damages by the ordering party are not excluded with regard to

a) damages resulting from injury to life, body or health caused by a negligent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents, and
b) other damages, based on an intentional or grossly negligent breach of duty on our part, or an intentional or grossly negligent breach of duty on the part of our legal representatives or our vicarious agents.

12. Advice, Plant Protection, Cultivation

12.1 Storage instructions, planting instructions, information on resistances, plant protection advice and other advice do not form part of purchase and delivery contracts. Unless they are expressly included in the contract, they merely represent non-binding information. They do not release the ordering party from their obligation to store and process the goods supplied by us in an appropriate and professional manner and to exercise the necessary care, especially when using plant protection agents, fertilizers and growth regulators. In particular, the possibility of a break-through of the stated resistances by the respective pest cannot be ruled out.

12.2 Insofar as we carry out plant protection consultations and provide information on resistances, the ordering party is obliged to first carry out a test of the recommended measures on a portion of the goods, if they decide to proceed, in accordance with the advice provided during the plant protection consultations. Only after successful testing may the general implementation of the measures take place. The test plants must be kept under identical conditions to the conditions under which the rest of the plants will be subjected after successful testing of the plant protection measures.
Subject to the restrictions in these contractual conditions, we shall only be liable for plant protection advice provided by us if a proper test has been carried out in advance, and this can be proven by the ordering party. Section **12.2** shall apply accordingly.

12.3 With regard to plant protection, the ordering party must observe the statutory provisions, in particular the Plant Protection Act. Even if we provide advice on plant protection, this does not exempt the ordering party from taking responsibility for the observation of the statutory provisions.

12.4 The ordering party shall be responsible for the cultivation, in particular with regard to the selection and use of growth regulators and inhibitors, fertilizers and plant protection products. The ordering party must ensure that the products used are compatible with one another. We wish to point out that damage may occur if, for example, growth regulators and pesticides that are incompatible are used. We accept no liability for any damage resulting from cultivation errors. Section 11.3 shall apply accordingly.

12.5 Descriptions, illustrations, recommendations for cultivation and other information, in whatever form, either from us or from our vicarious agents, such as information on shelf life, sowing, planting and harvesting dates, or any information and notes on growing and cultivation conditions, are based on practical and experimental procedures, as accurately as possible. In all cases, we shall not be held for any damages resulting from the implementation or use of such descriptions, recommendations for cultivation or any other information provided. The ordering party bears the sole risk and responsibility as to whether the products or the recommended cultivation methods are suitable for the intended cultivation under local conditions. Product illustrations in catalogues, on the internet or in other publications show the variety type of the respective cultivar and not the cultivar as such. These illustrations do not represent a guarantee of the harvest results, neither explicitly nor implicitly.

13. Proprietary Rights, Licenses, Propagation

13.1 The use of intellectual property rights applied by us, including industrial property rights (plant variety protection and trademark protection), copyrights and image rights, is only permitted on the basis of a license agreement. Specifically, those goods that are subject to plant variety protection may only be propagated and multiplied on the basis of a license agreement. Any such licence agreement shall be concluded separately, and there shall be no entitlement thereto; the license fees shall be determined in the license agreement.

13.2 In particular, variety protection is based on the respective legal provisions, especially the German Variety Protection Act (Sortenschutzgesetz). The supply of protected varieties by us shall be exclusively for the purpose of cultivation and subsequent sale; the ordering party shall not be authorised to produce propagating material or to export propagating material to any country that does not guarantee plant variety protection, except in cases where this is agreed separately, in writing.

13.3 If mutations/sports occur at the ordering party's premises, they shall inform us immediately, grant us access for inspection and verification and, without being requested to do so, they shall provide us with samples and cuttings of the mutations.

13.4 Should the ordering party be entitled to alleged rights from the identification of the mutation, which they wish to sell or have protected, they shall be obliged to inform us thereof in advance. In all cases, we reserve the right to assert our own rights to mutations.

13.5 In the event of a sale of any rights to mutations to which they may be entitled, the ordering party shall grant us an irrevocable right of first refusal; in the event of planned protection of such rights, they shall agree forthwith, to undertake to offer us the rights of assignment at a reasonable price and, in the event of non-transferability, for exclusive licensing.

13.6 If no agreement can be reached regarding an appropriate price, in the sense of the above clause, an assessor appointed by the Chamber of Agriculture with jurisdiction over us, shall determine an appropriate, binding price.

13.7 The customer shall irrevocably permit us or third parties commissioned by us to inspect his cultivation areas, after prior notification and scheduling, in order to verify compliance with the plant variety protection agreement.

13.8 Without our express written consent, the customer may not use any trademarks and symbols we use, to distinguish its products from those of any other legal entities or companies, and the ordering party is not permitted to use any trademarks and symbols that are not clearly distinguishable from ours. One exception to this is in the case of trading in our original packaging, bearing the trademarks and symbols affixed by us. Another exception applies in the event that the goods were delivered together with labels supplied by us. In this case, the trademarks used on the labels may only be used by attaching the labels supplied for the actual material supplied, in order to maintain the corporate design associated with them.

13.9 Please note that the GGN (GLOBAL GAP number) of Volmary GmbH may only be used for products produced by Volmary GmbH. Please ensure that the GGN is only used in accordance with GLOBAL GAP guidelines, and that it is not abused. Adopt the best possible practices for traceability and labelling of products, e.g. labelling of GAP-certified products at your premises, to exclude mix-ups.

14. Place of Fulfilment

14.1 The place of fulfilment for all services arising from contracts between ourselves and the ordering party shall be Münster in Westphalia (Germany).

15. Court of Jurisdiction

15.1 German law shall apply exclusively. The application of the UN Convention on Contracts for the International Sale of Goods and the applicability of any other conflicting provisions, which may lead to the applicability of other legal systems, including the so-called ROM I Regulation (EC 593/2008 of 17.06.2008), are expressly excluded.

15.2 For any disputes arising from contractual relationships between ourselves and the customer, the court of jurisdiction shall be Münster in Westphalia (Germany), unless a different exclusive court of jurisdiction is provided for by law.

16. Severability Clause

16.1 Should any of the clauses contained in these General Terms and Conditions, or any other clause contained in any contract concluded between ourselves and the customer, be or become invalid, either in their entirety or in part, the rest of the contract shall retain its validity The parties undertake to replace the invalid clause with an agreement that comes as close as possible to the original intention of the invalid clause, in economic terms.

Volmary GmbH,
Head Office Münster, Regional Court Münster, Trade Reg. No. 12502
CEOs: Hubertus Volmary, Frank Hüdepohl
